

# LOUISIANA ACADEMIC CONTENT PD VENDOR GUIDE

## THEORY OF ACTION

Students make meaningful growth when

- They use a high-quality curriculum every day;
- Teachers have initial and ongoing professional development that helps them use that curriculum effectively; and
- Teachers use data from a limited number of standards-aligned, non-summative assessments which measure how well students are meeting the outcomes of the high-quality curriculum.

## PURPOSE

Schools systems use this guide to identify vendors who provide initial and ongoing training for [Tier 1 curricula](#). It identifies vendors who specialize in helping districts and schools with designing and implementing a cohesive academic system focused on high-quality curriculum, professional development, and assessment. Successful implementation of high-quality curriculum and assessments requires the following:

### 1. INITIAL SUPPORT

Provide pre-service PD for teachers and leaders that builds their familiarity with the structure, approach, and key components of high-quality curricula and assessments.

### 2. ONGOING, FOCUSED COACHING

Build teachers' and leaders' ability to use the high-quality curricula and assessments; deepen knowledge of content and content pedagogy; build skill in using student data to meet the needs of all learners; and demonstrate how to use walk-through observations to foster teacher leadership, collaboration, and improved implementation.

## RELATED RESOURCES

- [Louisiana's Instructional Materials Reviews](#)
- [Curriculum Implementation Observation Tools](#)
- [School System Planning Resources](#)
- The Department and professional development vendors are working to ensure school systems have the support they need to implement their plans for a [strong start next school year](#). An abbreviated [Strong Start PD Vendor Guide](#) now supplements this guide and reflects virtual offerings for summer and fall of 2020, in the following four virtual offering [categories](#):
  - » Initial Curriculum Training
  - » Supporting Distance Learning
  - » [Addressing Unfinished Learning](#)
  - » Unit and Lesson Study Professional Development

## CONTACT US

- Vendors interested in being included in this guide or requesting edits to their current entry should follow the steps outlined in the [AC PD Vendor Guide - Submission and Review Process](#).
- Louisiana educators should send feedback on their experience with these vendors to [ClassroomSupportToolbox@la.gov](mailto:ClassroomSupportToolbox@la.gov).
- For more information about the PD Vendor Guide, please contact [LouisianaCurriculumReview@la.gov](mailto:LouisianaCurriculumReview@la.gov). For more information about vendor partnerships, visit the [LDOE Vendor Catalog](#).

This icon represents state contracts that cover instructional materials and program training and hyperlinks to [posted price lists](#). Entries without this icon require local contract arrangements for training services.

**VENDOR:** Children's Literacy Initiative (CLI)

**CONTENT AREA:** Early Childhood Education

**ALIGNED TIER 1 PRODUCT:** Blueprint for Early Literacy (Blueprint), Ages 3-4

**CONTACT FOR LOUISIANA:** Brenda Leger, Office: 215-561-4676 ext. 137, Cell: 501-687-7091,  
Email: [BLeger@cli.org](mailto:BLeger@cli.org) or [Blueprint@cli.org](mailto:Blueprint@cli.org)

## VENDOR DESCRIPTION

Children's Literacy Initiative (CLI) is a non-profit working with pre-k through 3rd grade teachers to improve early literacy instruction so that children become powerful readers, writers, and thinkers. For 30 years CLI has transformed and strengthened classrooms across the U.S. CLI helps teachers, directors, school-based coaches, teacher leaders, principals, and district leaders implement strategies & systems for continuous improvement of early literacy instruction.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
<i>Blueprint for Early Literacy®: An Introduction</i>	Explore and practice the lessons and unique approaches of this comprehensive Pre-K curriculum. <b>Required for fidelity of implementation</b>	f2f	6 hours	✓	✓	✓	✓	30	\$4,000*
The below listed training sessions are in addition the introduction to Blueprint session listed above. Each session listed below further explores critical components of Blueprint.									
Rethinking Your Morning Message	Discover a differentiated, modeled writing and shared reading instructional practice that has shown great impact on children's literacy development with its authentic classroom approach. <b>Prerequisite: Intro to Blueprint</b>	f2f	6 hours		✓		✓	30	\$4,000*
Writing in Pre-K with Authenticity	Explore effective ways of moving children from making random marks on a page to composing texts with identifiable letters and words using engaging writing activities, that allow educators to plan with more intentionality. <b>Prerequisite: Intro to Blueprint</b>	f2f	6 hours		✓		✓	30	\$4,000*
Classroom Culture	An in-depth look at the elements of classroom culture: kindness, dignity, and mutual respect and how educators can make immediate positive modifications in every classroom. <b>Prerequisite: Intro to Blueprint</b>	f2f	6 hours		✓		✓	30	\$4,000*

\*Fees are discounted with purchase of multiple products and services.

The Children's Literacy Initiative (CLI) works with school and district leaders to develop new skills and create processes that ensure long term sustainability and establish a cycle of continuous improvement for students and a strong trajectory of learning of all education staff from Pre-K through K-3. As we know learning to read by the end of third grade is a strong predictor of a student's future academic achievement. An early childhood teacher's instruction plays a critical role in a child's school readiness and reading development, but many Pre-K teachers fail to receive adequate training in specific content areas such as early literacy. By helping educators learn high-impact instructional strategies and nurturing dynamic professional learning communities of connecting Pre-K teachers with their K-3 colleagues, each gain a better understanding of building a strong education foundation for a strong trajectory of learning. With this cooperative learning across ages, grades, buildings and systems CLI builds lasting capacity in teachers and principals over time.

### LEADERSHIP TEAM MEETINGS

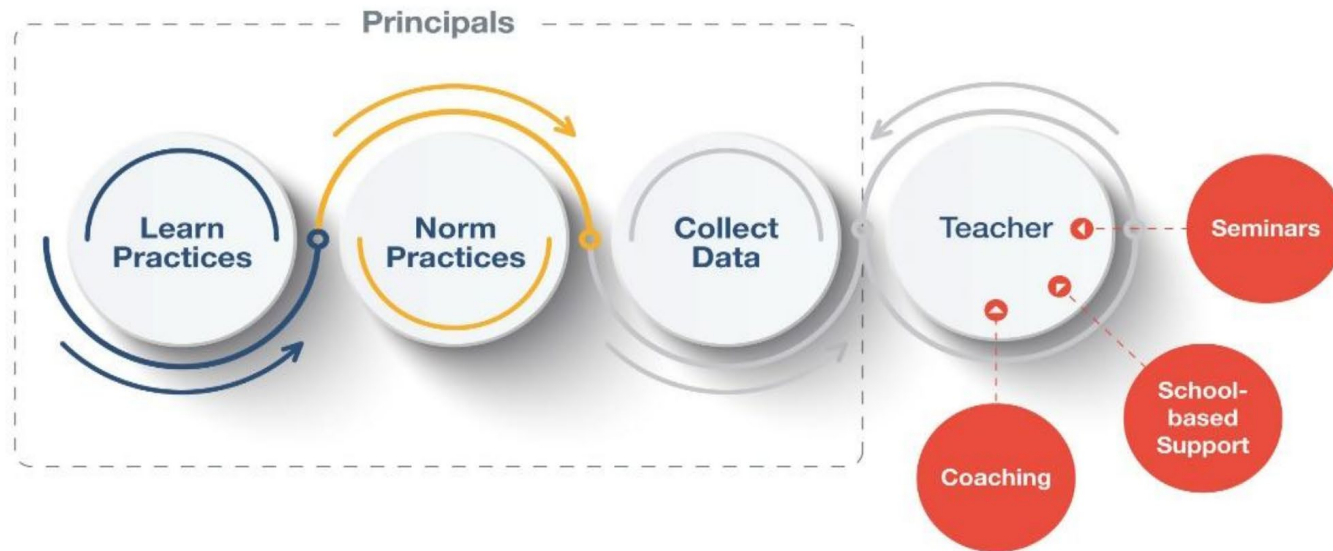

Leadership Team Meetings provide a regular opportunity for the school principal, CLI Regional Manager, and other school-based leadership (literacy coaches, teacher-leaders, early childhood specialists, etc.) to assess school strengths and areas of need, review student data, set goals, identify success indicators, plan action steps and agree on a timeline for action.

### REVIEWS OF PROGRESS

A review of progress is a structured opportunity for literacy coaches, site leaders and district administrators to examine evidence of progress, identify areas of strength and areas for improvement. ROPs occur once per year to serve as an end-of-year review.

### PRINCIPAL MEETINGS

Participating principals come together three times a year to learn the competencies of effective early literacy leadership. This includes learning to recognize when research based practices are occurring and how to provide actionable feedback for improvement.

**VENDOR:** Teachstone

**VENDOR:** Tulane University Early Childhood Mental Health Consultation Program

**CONTENT AREA:** Early Childhood Education

**ALIGNED TIER 1 PRODUCT:** CLASS™

**CONTACT FOR LOUISIANA:** Allison Boothe Trigg, PhD, 504-988-2714; [aboothe@tulane.edu](mailto:aboothe@tulane.edu)

## VENDOR DESCRIPTION

The Tulane University Early Childhood Mental Health Consultation (ECMHC) Program works to support healthy child development and prepare young children for success in school through a focus on social and emotional development, and our combination of training and services supports teachers' understanding of the CLASS tool. Our ECMHC model is designed to support all children, families, and staff involved with an early care and education providers and has three primary goals: (1) To promote the social, emotional, and behavioral health of young children; (2) To support teachers' promotion of healthy child development within the classroom setting; and (3) To refer for treatment and/or design interventions for young children exhibiting challenging behaviors or mental health concerns. The ECMHC program works to identify effective strategies to enhance teachers' capacity in promoting a healthy classroom environment and healthy classroom interactions, which are critical to increasing the quality of early childhood education and support healthy whole child development and serve as the foundation for learning. The ECMHC program aims to assist teachers in creating a positive classroom climate, responding sensitively to children's needs and following children's leads, while also supporting teachers in using positive methods of discipline. Nurturing the development of social-emotional skills facilitates the development of the skills children need to experience academic success (e.g., understanding concepts, persisting on tasks, and expanding language).

## SAMPLE PARTNERSHIP SERVICES

For more information about partnership services, including customized packages, contact Robyn Clark at [rclark@kaplanco.com](mailto:rclark@kaplanco.com) or 336-712-3252.

The most sustainable approach is a combined model of onsite instructor-led group implementation training for teachers and program leaders implementing the curriculum, supplemented by a follow-up PLC phone call. The typical group size should not exceed 30 per day to ensure a setting that maximizes the instructor's ability to monitor teacher knowledge and skill acquisition. The minimum suggested C4L training includes the following components and hours:

Training to accomplish goals	Hours of training
Implementation training	6 hours total
Follow-up PLC phone call	2 hours
Mid-year training*	6 hours
½ day Administrator training	3 hours
<b>Total</b>	<b>17 hours total training</b>

## \*Possible Mid Year Topics:

- Adapting C4L for use for Children with Learning Differences (6 hour and 3 hour sessions)
- Pyramid Model Essentials for C4L Users (6 hour and 3 hour sessions)
- Responsive Teaching Strategies in C4L (3 hour)
- Adapting C4L for use in Mixed Age Classrooms (3 and 4 year olds)
- Instructional Strategies in C4L (6 hours)
- Conducting Effective Read-Alouds (6 hour and 3 hour sessions)
- C4L Literacy Essentials (6 hour)
- How to Scaffold Writing with Preschoolers (6 hour and 3 hour sessions)

## LONG-TERM PARTNERSHIP: CALCASIEU PARISH

In 2017, Calcasieu Parish School System chose *DIG* as their sole preschool curriculum for 169 classrooms (incl. 115 regular ed, 30 Head Start, and 24 special ed). Faced with the challenge of delivering a consistent early childhood experience across all classroom types, the parish's Early Childhood Director collaborated with a *DIG* PD Specialist to create the following comprehensive, multi-year PD plan.

- **Implementation Training (Year 1), August 2017:** 145 teachers and their paraprofessionals, as well as instructional coaches and other parish support staff participated in a implementation training institute that provided up to 12 hours of initial program training.
- **Implementation Training (Year 2), August 2018:** 145 teachers and their paraprofessionals, as well as instructional coaches and other parish support staff participated in a 2-day early childhood conference that provided 3 hours of initial program training for new users plus 9 hours of extended program training for existing users interested in deepening their understanding of best practices in language, literacy, and math and how to maximize the use of those best practices through *DIG*.
- **In-Class Modeling, September 2018:** 40 teachers and school site administrators participated in 3-hour in-class modeling sessions provided across 5 days. Each session included a guided peer discussion on initial experiences with implementation. Teachers observed modeled lessons, shared feedback, and made action plans.
- **In-Class Planning and Support, Upcoming 2018:** Teachers who participated in the September 2018 in-class modeling sessions will regroup for a 2-day training event designed to take their teaching further. Working in small cohorts, teachers will plan *DIG* lessons with fidelity to CLASS expectations, and then return to their own classrooms to deliver instruction while videotaping their lesson. On day 2, teachers will regroup with their cohort and collaboratively reflect on the effectiveness of their lesson and set goals for next steps.

## LONG-TERM PARTNERSHIP: TANGIPAHOA PARISH

After *DIG* was recognized as a Tier 1 curriculum provider in Louisiana, the Tangipahoa Parish School System chose *DIG* as their sole preschool curriculum for 42 classrooms, serving 735 students. Interested in supporting her teachers as fully as possible, the parish's Early Childhood Coordinator collaborated with a *DIG* PD Specialist to create the following comprehensive and ongoing PD plan.

- **Implementation Training, June 2017:** 42 teachers and 3 mentor teachers participated in a 2-day implementation training institute that provided 6 hours of initial program training followed by 6 hours of best-practices workshops focusing on oral language development, literacy acquisition, and building strong connections with families.
- **In-Class Modeling, September 2017:** 32 teachers and 3 mentor teachers participated in 3-hour in-class modeling sessions provided across 3 days. Each session included a guided peer discussion on initial experiences with implementation. Teachers observed modeled lessons, shared feedback, and made action plans. Modeled lessons were videotaped and provided to teachers for future use and training.
- **Implementation Tune Up, October 2017:** 42 teachers 3 mentor teachers , and 42 paraprofessionals participated in a 6-hour “tune-up” session, based on needs determined by the Early Childhood Coordinator. This training focused on positive teacher to student interactions; a deeper understanding of *DIG* instructional content, best practices, and instructional strategies; and how to increase teacher collaboration across the parish.

## VENDOR: Agenda for Children

### CONTENT AREA: Early Childhood Education

Additional Frog Street offerings available at <http://www.frogstreet.com/professional-development/>. For more information about partnership services, including customized packages, contact Dr. Glenda Allen-Jones or visit [www.frogstreet.com](http://www.frogstreet.com).

Frog Street believes Professional Development (PD) should be a comprehensive, conscientious, and collective approach to improving educators' (and other community stakeholders) effectiveness in raising student achievement. This continuous cycle of improvement should be based on using a variety of methods that are collaborative and focused on results. The Frog Street Professional Development philosophy is to build the capacity of teachers through comprehensive, intentional and instructional training, as well as coaching for sustainability, engaging families, and understanding assessment. The outcome of the Professional Development plan is increased capacity of instructional staff which, in turn, means increased developmental growth and achievement of preschool children.

## THREE YEAR PLAN OUTLINE

### YEAR 1 – REINFORCE CURRICULUM, ITS KEY CONCEPTS, AND THE SCIENCE BEHIND IT.

- Beginning of Year Curriculum Implementation – All Teachers
- Late Fall – Curriculum Follow-up – All Teachers
- Spring – Core Content Focus – All Teachers

### YEAR 2 – ENGAGE TEACHERS WITH FOCUS ON CRITICAL LEARNING; LITERACY, MATH, AND SCIENCE.

- Beginning of Year – Curriculum Follow-up – All Teachers
- Late Fall – Coaching – Group I Teachers
- Spring – Core Content Focus & Coaching – All Teachers

### YEAR 3 – COACH, MODEL, AND REVIEW BEST PRACTICES TO OPTIMIZE CLASSROOM LEARNING.

- Beginning of Year – Curriculum Follow-up – All Teachers
- Late Fall – Core Content Focus – All Teachers
- Spring – Coaching – All Teachers

Frog Street's PD team provides educators with the tools, strategies and techniques needed to implement the curriculum with fidelity and better prepare children for kindergarten. Frog Street provides engaging and interactive sessions designed to both motivate and educate participants on not only how to implement Frog Street curriculum but also how to improve educators' skills at providing differentiated instruction and a joyful approach to learning.

Frog Street's approach is to collaborate with the Parish/School internal stakeholders to develop a comprehensive professional development plan for the term of the contract. The plan's alignment between Frog Street and the Parish/School will ensure that strategic objectives and their related outcomes are being addressed and incorporated into the plan.

Staffing for each course included in the professional development plan is dependent on a number of factors including the number of course participants, the specific course chosen and the venue needed for the course.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

The most sustainable approach is a combined model of on-site instructor-led group implementation training for teachers and program leaders implementing the curriculum, supplemented by a follow-up webinar. The typical group size should not exceed 30 per day to ensure a setting that maximizes the instructor's ability to monitor teacher knowledge and skill acquisition. The suggested LED-ITT training includes the following components and hours:

Training to accomplish goals	Hours of training
Implementation training	6 hours total
Follow-up webinar	2 hours
Mid-year training*	6 hours
½ day Administrator training	3 hours
Total	17 hours total training

\*Possible Mid Year Topics:

- Developing an Effective Learn Every Day™ Environment
- Observing, Reflecting and Planning using Learn Every Day™
- Intentional and Purposeful Teaching Using Learn Every Day™
- Guiding Children's Learning in the Learn Every Day™ Classroom
- Using Learn Every Day™ to Differentiate Instruction

**VENDOR:** Robert-Leslie Publishing

**CONTENT AREA:** Early Childhood Education

**ALIGNED TIER 1 PRODUCT:** The Early Childhood Company®: Little InvestiGators Infant/ Toddler (0-36 mths)\*; InvestiGator Club Preschool/Pre-K (3-5)\*

**CONTACT FOR LOUISIANA:** Marilyn Overby, Educator Support, 773-935-8358, [marilyn.overby@robert-leslie.com](mailto:marilyn.overby@robert-leslie.com)

## VENDOR DESCRIPTION

Robert-Leslie Publishing, The Early Childhood Company® is committed to the education of young children by providing the comprehensive curriculum, background knowledge, and materials needed for classroom excellence. Integral to this mission is providing professional development options for teachers and administrators on RLP's Tier 1 curricula, Little InvestiGators for infants, toddlers, and twos; and The InvestiGator Club for preschool and prekindergarten ages 3-5.

RLP professional development is hands-on, inquiry-based, and interactive. We want teachers to understand both the content of The InvestiGator Club programs, and the methodology and why it is effective for children to learn through scientific inquiry. We want teachers to experience success.

Teachers walk away from the training not only excited about the curriculum, but confident in knowing exactly how to get a strong and confident start in implementing the program. The trainer unpacks, organizes, and briefly discusses each component with plenty of time allocated for question/ answer and hands-on interaction with the products. Effective teaching strategies are modeled by our early childhood experts and presenters.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Little InvestiGators Training	Topics include: Responsive Caregiving; Learning Environments; Language and Cultural Diversity; Families as Partners; Lesson Planning; Assessing Growth and Development	On-site	½ day	✓	✓	✓	✓	20	\$1,800
InvestiGator Club Pre-K Training	Topics include: Instructional Strategies; Embedded Assessments; Grouping Strategies; Learning Centers; Daily Routines; Transitions; Explicit Lessons and Choices; Project Based Learning; Differentiation; Management Tips	On-site	1 ½ day	✓	✓	✓	✓	20	\$4,400

For more information about partnership services, including customized packages, contact 773-935-8358 or visit [www.investigatorclub.com](http://www.investigatorclub.com).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Robert-Leslie Publishing's models for long-term partnerships include the following:

- Initial training for teachers and coaches
- Ongoing training via customized webinars, professional webinars, phone and online support
- Monitoring Tool for coaches and administrators
- ECERS-R Correlation Tool for coaches and administrators
- Follow-up training and re-training at the beginning of each school year or on request
- Purchase of a specific number of individualized On-site training days; for example, in San Antonio, Robert-Leslie Publishing was paid for an entire year of training with the RLP consultants visiting individual classrooms each day of the school year. San Antonio PCI included 400 classrooms. Over 600 teachers, coaches, and support staff were trained the first year. Chicago Public School purchased 50 training days per year to be used for On-site trainings in individual classrooms as needed.

Long-term training programs will be customized based on school needs.

**CONTACT:** Jordan Brophy-Hilton, 919-579-0377, [jordan.brophy-hilton@instructionpartners.org](mailto:jordan.brophy-hilton@instructionpartners.org)

## VENDOR DESCRIPTION

Instruction Partners is a nonprofit that partners with schools and parishes to strengthen daily instruction. We help school and parish teams understand the answers to two questions: 1) Are we teaching the right content? and 2) Are all students supported to learn the content that is taught? We then work with school teams to develop a game plan that leverages curriculum improvements, teacher and leader professional development, and coaching. Through this shoulder-to-shoulder support, Instruction Partners empowers leaders to build their capacity to support instruction and help students learn more. Instruction Partners supports both Tier 1 instruction and students behind grade level. Schools that have worked with Instruction Partners have seen notable gains in daily instruction and student growth.

## SAMPLE PARTNERSHIP SERVICES

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Instruction Partners works with school and system leadership teams through cycles of improvement to **observe** teaching and learning, make a practical **plan** for improvement, **develop** teacher and leader capacity to carry out the plan, and **support** follow-through. We repeat this cycle multiple times within the year to drive improvements in teaching and learning. Through professional development, standards-specific feedback, and coaching leaders, we empower schools and systems to build a culture of instructional excellence. This cycle repeats in each year of partnership to address different challenges and engage more schools and educators.

Every partnership is unique. Designing a partnership that makes sense for each school and parish is an important part of the process. At the start of each school year, we help our partners prioritize their areas for support:

		Parish A, Year 1	Parish A, Year 2
<b>1. Pick your schools</b>	<ul style="list-style-type: none"> <li>Do you want to focus on all schools or specific subset?</li> <li>Do you have a new leader coming into a school that may need support?</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Leading Educators works with school systems to put professional development where it belongs: back in schools. We partner with districts and CMOs over a period of 2–5 years to build customized, context-specific professional learning systems to reach their instructional priorities. We do this by:

- Working with district leaders to establish the enabling conditions key to the successful implementation of high-quality professional learning systems that live within schools.
- Providing job-embedded training, coaching, and other supports that are grounded in data and the reality of teachers' daily practice.
- Delivering context-specific programming that develops teachers' leadership, equity, and subject matter expertise in English, language arts, and math.
- Supporting teacher leaders in implementing Content Cycles to build their capacity as designers and facilitators of content growth. Planning for gradual release of program design and teams support so districts can sustain success over the long-term.

### SPOTLIGHT OF A LONG-TERM LEADING EDUCATORS PARTNERSHIP:

We began our partnership with [DC Public Schools \(DCPS\)](#) in 2013 as part of Teacher Leadership Innovation - a teams-based, instruction-focused pilot program that operated in seven schools. The partnership evolved into the “[LEarning together to Advance our Practice](#)” (LEAP) initiative that continues in all 115 of the district's schools.

Through LEAP, DCPS has prioritized elevating instruction across the entire school system, building both the [capacity of teachers to lead changes in the quality of teaching](#) that takes place in their school, and the capacity of DCPS to embed and sustain this work in alignment with other initiatives. By the second year of the program, we worked with DCPS to train about 600 teacher, school, and district leaders who will impact over 48,000 students each year.

## VENDOR: SchoolKit

**CONTENT AREA:** English Language Arts

**ALIGNED TIER 1 PRODUCT:** Core Knowledge Language Arts (CKLA), ELA, Grades K-2

**CONTACT:** Ethan Mitnick, 610-858-1546, [ethan@schoolkitgroup.com](mailto:ethan@schoolkitgroup.com)

## VENDOR DESCRIPTION

We partner with schools and districts to improve instruction and leadership through content and curriculum-specific training and onsite coaching support. Beginning in 2017, we led the ELA and Intervention Content Leader programs and School Support Institutes in partnership with the LDOE and have trained educators across the state on Tier 1 ELA and math curricula.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

A sample year-long partnership consists of the following supports:

- 5–6 days of **training for teachers** on effective planning practices and evidence-based strategies to support all students in reading, writing, speaking, and listening. We recommend at least two days in the summer, with the remaining days scheduled throughout the year.
- 2–6 days of **training and instructional walkthroughs for school leadership teams** to build their knowledge of the curriculum and strengthen teacher collaborative planning time (PLCs), observation and feedback, and school-based instructional systems.
- 3–4 days of **co-planning and instructional walkthroughs with district leaders** to identify trends and set goals for curriculum use and literacy instruction across schools, refine instructional systems, and plan to continue building local capacity.

We partner with school and district leaders to customize our work and ensure that we meet the needs of novice and advanced educators, build on previous curriculum trainings, and align our work to existing district structures and priorities. We support both stand-alone districts and schools, as well as LEAs working in a consortium model (i.e., multiple charter schools, consortia of 2 or more smaller districts working together).

**VENDOR: TNTP****CONTENT AREA: English Language Arts****ALIGNED TIER 1 PRODUCT: Core Knowledge Language Arts (CKLA)****CONTACT: TNTP, 718-233-2800, [info@tntp.org](mailto:info@tntp.org)****VENDOR DESCRIPTION**

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

For more information about partnership services, including customized packages, contact Mary Jones ([mary.jones@tntp.org](mailto:mary.jones@tntp.org)) or visit [www.tntp.org](http://www.tntp.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

1. **Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.** TNTP will provide direct support to the district through a variety of avenues, including:
  - Leading learning walks,
  - Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
  - Student work analysis,
  - Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
  - Weekly consultation with district leaders.
2. **Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 400 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

### **LONG-TERM PROFESSIONAL DEVELOPMENT PLAN: INCREASING IMPACT AND ELEVATING STUDENT ACHIEVEMENT**

Our professional development delivers the sustained, personalized guidance educators need to support their students throughout their implementation of the K-5 ELA curriculum. Each offering is designed to support the unique needs of our partners and is highly customizable and individualized. Before launching each blended learning plan, the dedicated EL Education coach will meet with each partner to understand specific needs and readiness to implement and will continue to work with school leads, coaches, and lead teachers throughout the year to ensure teachers are supported.

Each learning experience incorporates best practices from our 25 years of experience supporting schools and provides coaching and support that mirrors teacher implementation progress throughout each year. First year learning experiences are designed to support teachers as they learn the curriculum, master teaching shifts, and understand how to capture, analyze, and use data to support student progress.

Second year learning experiences are designed to build on teacher practice growth and learning to further strengthen the impact of their instructional practices. Participants engage in collaborative activities that support deeper dives into instructional shifts, strategies, and areas of innovation. They continue to learn with and from each other to support student progress across grade levels.

**CONTACT:** Jordan Brophy-Hilton, 919-579-0377, [jordan.brophy-hilton@instructionpartners.org](mailto:jordan.brophy-hilton@instructionpartners.org)

## VENDOR DESCRIPTION

Instruction Partners is a nonprofit that partners with schools and parishes to strengthen daily instruction. We help school and parish teams understand the answers to two questions: 1) Are we teaching the right content? and 2) Are all students supported to learn the content that is taught? We then work with school teams to develop a game plan that leverages curriculum improvements, teacher and leader professional development, and coaching. Through this shoulder-to-shoulder support, Instruction Partners empowers leaders to build their capacity to support instruction and help students learn more. Instruction Partners supports both Tier 1 instruction and students behind grade level. Schools that have worked with Instruction Partners have seen notable gains in daily instruction and student growth.

## SAMPLE PARTNERSHIP SERVICES

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Instruction Partners works with school and system leadership teams through cycles of improvement to **observe** teaching and learning, make a practical **plan** for improvement, **develop** teacher and leader capacity to carry out the plan, and **support** follow-through. We repeat this cycle multiple times within the year to drive improvements in teaching and learning. Through professional development, standards-specific feedback, and coaching leaders, we empower schools and systems to build a culture of instructional excellence. This cycle repeats in each year of partnership to address different challenges and engage more schools and educators.

Every partnership is unique. Designing a partnership that makes sense for each school and parish is an important part of the process. At the start of each school year, we help our partners prioritize their areas for support:

		Parish A, Year 1	Parish A, Year 2
<b>1. Pick your schools</b>	<ul style="list-style-type: none"> <li>Do you want to focus on all schools or specific subset?</li> <li>Do you have a new leader coming into a school that may need support?</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Leading Educators works with school systems to put professional development where it belongs: back in schools. We partner with districts and CMOs over a period of 2–5 years to build customized, context-specific professional learning systems to reach their instructional priorities. We do this by:

- Working with district leaders to establish the enabling conditions key to the successful implementation of high-quality professional learning systems that live within schools.
- Providing job-embedded training, coaching, and other supports that are grounded in data and the reality of teachers' daily practice.
- Delivering context-specific programming that develops teachers' leadership, equity, and subject matter expertise in English, language arts, and math.
- Supporting teacher leaders in implementing Content Cycles to build their capacity as designers and facilitators of content growth. Planning for gradual release of program design and teams support so districts can sustain success over the long-term.

### SPOTLIGHT OF A LONG-TERM LEADING EDUCATORS PARTNERSHIP:

We began our partnership with [DC Public Schools \(DCPS\)](#) in 2013 as part of Teacher Leadership Innovation - a teams-based, instruction-focused pilot program that operated in seven schools. The partnership evolved into the “[LEarning together to Advance our Practice](#)” (LEAP) initiative that continues in all 115 of the district's schools.

Through LEAP, DCPS has prioritized elevating instruction across the entire school system, building both the [capacity of teachers to lead changes in the quality of teaching](#) that takes place in their school, and the capacity of DCPS to embed and sustain this work in alignment with other initiatives. By the second year of the program, we worked with DCPS to train about 600 teacher, school, and district leaders who will impact over 48,000 students each year.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Open Up Resources is proud to partner with a variety of professional development providers so that we can appropriately tailor PD to meet the vision and needs of Louisiana Districts. You are free to mix and match or select a single model that best meets your needs. Open Up Resources has veteran ELA field specialists that have worked at both district and state levels ready to partner with you for free in order to help you make the best choices for your schools. They look forward to engaging with district- and building-level leadership on developing a customized model of professional development based on culture and proficiency. While we work with several professional development providers, Open Up Resources will coordinate the planning and implementation of your choice.

An example high-level model that may be used for a 3-year implementation plan is as follows:

YEAR 1: Investment into school-based leadership and teacher capacity largely at the content level	YEAR 2: Focus on instructional shifts teachers are making with a problem-based curriculum as well as ELL and SD supports	YEAR 3: Transitioning to a self-sustaining district
2-3-day introduction to curriculum training for teachers and an additional day for teacher leaders	2-day introduction to curriculum training for teachers new to the curriculum 2-day follow-up training for teachers, leaders, and coaches and additional half-day leadership training on supporting PLC's	2-day introduction to curriculum training for teachers new to the curriculum A 2-day training focused on partner needs for teachers, leaders, and coaches
Additional content-based trainings throughout year for teachers, leaders, and coaches Guided Implementation support for district and school-based leadership in order to build knowledge about curriculum Coaching through PLC's and/or 1:1 coaching	Guided Implementation support for district and school-based leadership in order to collect and analyze implementation data Coaching through PLC's and/or 1:1 coaching	PLC and/or 1:1 coaching for literacy coaches and instructional leaders and 1:1 coaching for new teachers

While the plan above is a suggestion, we believe it represents key parts of implementation that will need to be considered. We look forward to collaboratively adapting this plan to suit the needs of your district. Open Up Resources is more than a publisher of great quality curriculum, we are a partner for instructional change!

## SAMPLE LONG-TERM PARTNERSHIP MODEL

**Long-term Partnership Model:** The core of our work is based on research that effective professional learning incorporates three critical components:

**Core academic content embedded in exceptional instructional materials and aligned to research-based practices.** Teachers deserve daily access to instructional practices based in research. Deep study of high-quality instructional materials allows teachers to grow their knowledge over time and spread that knowledge to their colleagues. We call this the **“head”** of professional learning.

**Teacher-led communities that build both social capital and buy-in.** Teachers deserve to feel motivated and supported by their peers to learn and grow. In teacher-led communities, educators are more likely to buy in to their own development and work collaboratively with their colleagues to improve instruction. We call this the **“heart”** of professional learning.

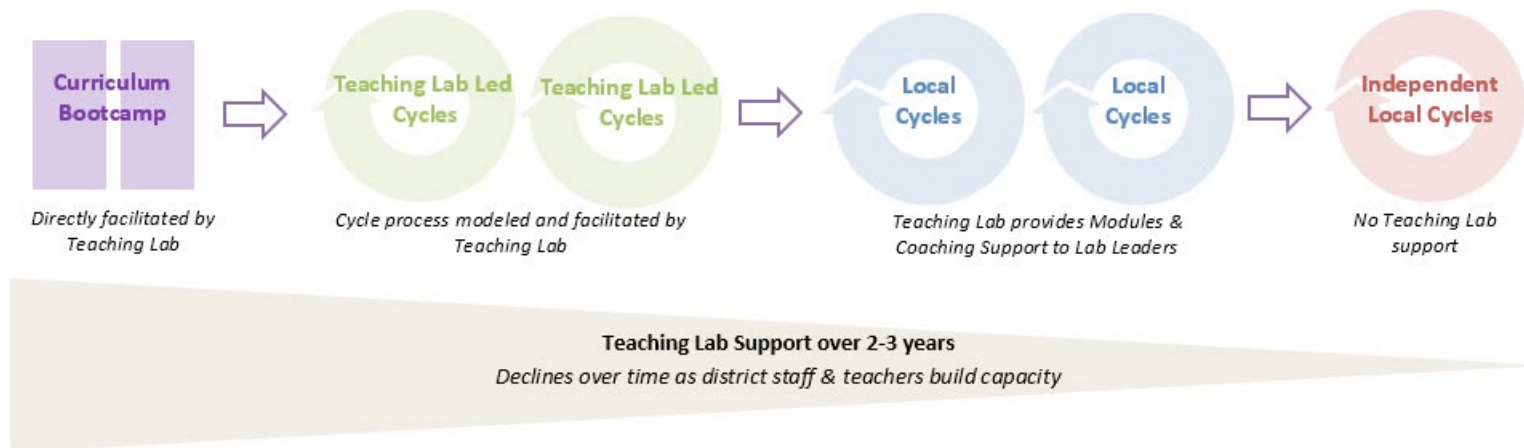

**Structured and repeated cycles of learning in the classroom.** Teachers deserve to learn from their efforts. Repeated cycles of learning afford teachers the time and space to reflect, incorporate new learning into practice, and verify changes to instruction using analysis of student work. We call this the **“habits”** of professional learning.

**We integrate these three components by creating “Labs” in schools and districts. Labs are often compared to PLCs.**

A **Lab** is a group of teachers of the same subject working with students in the same or similar grade levels within a network of schools. Labs are led by two or more **Lab Leaders**, who are experienced teachers and instructional coaches who support their colleagues’ development. Labs center their work on curriculum-specific professional learning **Content Modules** created by Teaching Lab and vetted by experts. Content Modules support repeated **Cycles** of learning that align with student-facing materials to drive teacher professional learning. Cycles last four to six weeks to allow for teachers to apply and evaluate new learning. Labs complete two to four Cycles each school year.

**Teaching Lab starts by directly facilitating this work, gradually releasing facilitation responsibility to Lab Leaders over time while supporting with session modules and coaching support. Eventually, systems run their own Local Cycles independently.**

**CONTENT AREA: English Language Arts**

**ALIGNED TIER 1 PRODUCT: EL Education**

**CONTACT: TNTP, 718-233-2800, [info@tntp.org](mailto:info@tntp.org)**

## VENDOR DESCRIPTION

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
EL Education	<p>TNTP provides a variety of school-based instructional coaching support based on the context and need of target districts. For more information about partnership services, including customized packages, contact Mary Jones ([mary.jones@tntp.org](mailto:mary.jones@tntp.org)) or visit [www.tntp.org](http://www.tntp.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

1. **Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.** TNTP will provide direct support to the district through a variety of avenues, including:
  - Leading learning walks,
  - Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
  - Student work analysis,
  - Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
  - Weekly consultation with district leaders.
2. **Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 400 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

# SAMPLE LONG-TERM PARTNERSHIP MODEL

A customized implementation plan with schedule and milestones will be developed to align with school and district timelines and goals. The excerpt from the ELA Guidebooks Professional Learning Plan below provides an example of key activities and events within a long-term partnership model.

 <b>Professional Learning Plan</b>	
<b>ELA Guidebooks Professional Development</b>	
Workshops are designed for 3-6 hours. Please ensure participants have devices and internet access.	
Focus of Workshop	
Introduction to ELA Guidebooks	In this workshop, teachers will learn to navigate the ELA Guidebooks platform and explore the Standards-based backward design model that is organized around a collection of texts. Teachers will engage in a model lesson, investigate ELA Guidebooks components and resources, and explore high-leverage teacher strategies that may be used to drive instructional improvements. Guided lesson planning is included in this workshop.
Every Student, Every Day	The goal of the ELA Guidebooks 2.0 units is to ensure that all students read, understand, and express their understanding of complex, grade-level texts. In this workshop, teachers will investigate additional resources and tools within the ELA Guidebooks platform to plan lessons with embedded differentiation. Additional exploration of high-leverage teacher strategies and guided lesson planning are included in this workshop.
Guidebooks & Writing	Effective writing instruction requires a deep understanding of the grade-level expectations for the writing genres: informational, narrative, and argument. In this workshop, teachers will use the ELA Guidebooks to deepen their understanding of these genres, examine writing tasks and rubrics as tools for instruction and assessment, and design lesson plans for writing instruction.
Guidebooks & Vocabulary	The amount and sophistication of academic vocabulary found in complex texts can present a challenge to readers. In this workshop, teachers will explore the tiers of vocabulary and the relationship between vocabulary and text complexity. Guided lesson planning will provide an opportunity for teachers to bring best practices in vocabulary instruction to their ELA Guidebooks instruction.
Guidebooks & Text-Dependent Questions	Text-dependent questions are a powerful tool to scaffold complex text and to challenge, engage, and support students. In this workshop, teachers will learn to design text-dependent questions, explore four cognitive pathways and their impact on student thinking, and write questions aligned to ELA Guidebooks-required texts.
<b>Day 1</b>	Leadership teams examine evidence of implementation, note trends and variations, and identify strengths and potential high-leverage instructional strategies (for example, engagement strategies, Accountable Talk, rigorous questioning, formative assessment opportunities, and the use of visual aids).
<b>Day 2</b>	The ARC Coach leads Professional Learning Community meetings focused on lesson planning that includes the high-leverage instructional strategies identified.
<b>Day 3</b>	Teachers facilitate the planned lessons (incorporating the identified high-leverage instructional strategies) with elbow-to-elbow coaching from the ARC Coach.
<b>Day 4</b>	The ARC Coach leads Professional Learning Community meetings to debrief the lessons, analyze student work, lead the provision of procedural feedback, and action plan next steps.
<b>Day 5</b>	Leadership teams examine evidence of implementation and impact of the improvement cycle, note trends and variations, and determine action steps for continued improvement and capacity building.

**VENDOR:** Associated Professional Educators of Louisiana

**CONTENT AREA:** English Language Arts

**VENDOR:** Instruction Partners

**CONTENT AREA:** English Language Arts

**ALIGNED TIER 1 PRODUCT:** Louisiana's ELA Guidebooks

**CONTACT:** Jordan Brophy-Hilton, 919-579-0377, [jordan.brophy-hilton@instructionpartners.org](mailto:jordan.brophy-hilton@instructionpartners.org)

## VENDOR DESCRIPTION

Instruction Partners is a nonprofit that partners with schools and parishes to strengthen daily instruction. We help school and parish teams understand the answers to two questions: 1) Are we teaching the right content? and 2) Are all students supported to learn the content that is taught? We then work with school teams to develop a game plan that leverages curriculum improvements, teacher and leader professional development, and coaching. Through this shoulder-to-shoulder support, Instruction Partners empowers leaders to build their capacity to support instruction and help students learn more. Instruction Partners supports both Tier 1 instruction and students behind grade level. Schools that have worked with Instruction Partners have seen notable gains in daily instruction and student growth.

## SAMPLE PARTNERSHIP SERVICES

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Instruction Partners works with school and system leadership teams through cycles of improvement to observe teaching and learning, make a practical plan for improvement, develop teacher and leader capacity to carry out the plan, and support follow-through. We repeat this cycle multiple times within the year to drive improvements in teaching and learning. Through professional development, standards-specific feedback, and coaching leaders, we empower schools and systems to build a culture of instructional excellence. This cycle repeats in each year of partnership to address different challenges and engage more schools and educators.

Every partnership is unique. Designing a partnership that makes sense for each school and parish is an important part of the process. At the start of each school year, we help our partners prioritize their areas for support:

		Parish A, Year 1	Parish A, Year 2
<b>1</b> <b>Pick your schools</b>	<ul style="list-style-type: none"> <li>Do you want to focus on all schools or specific subset?</li> <li>Do you have a new leader coming into a school that may need support?</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>

**CONTACT:** Dr. Josh Barnett, 479-387-8973, [jbarnett@niet.org](mailto:jbarnett@niet.org)

## VENDOR DESCRIPTION

In over 20 years of work, NIET has partnered with high-need schools and districts to implement cohesive school improvement systems focused on quality professional development, strong curriculum, and effective teaching and assessment practices. Each of NIET's research-based strategies supports the growth of school leaders, teachers and students, building a culture of continuous improvement in every building. Our onsite support and trainings are grounded in the expectations of the Louisiana standards and Tier 1 curricula. NIET meets partners where they are and creates tailored supports around key elements proven to accelerate successful curriculum implementation and teacher and student growth. Our school improvement team consists of educators who have lived this work as teachers, principals or superintendents in high-need schools, and mastered the strategies that lead to school improvement.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

NIET partners with districts to improve instruction and outcomes for students. All onsite support and trainings are designed to meet the specific needs of the district and/or school, and, as such are customizable and approached through different entry points based on needs assessments and ongoing review of implementation. For example:

- Assist district and school level leaders with developing comprehensive school plans to increase student achievement in the core content areas and teacher pedagogy.
- Lead, participate and coach district and school level professional development focused on monitoring the quality of curriculum implementation for depth and rigor with the alignment of instruction and student growth.
- Train, support and coach teacher leaders in planning and delivering job-embedded professional development around the quality use of curriculum, instructional best practices, and the analysis of associated student work.
- Support and coach district, school and teacher leaders to identify curricular, teacher and student level needs which includes the following: planning, observation and feedback, team teaching, modeling, and other needs identified by the district.
- Train and support school level leaders to coach teachers in developing reflective partnerships that encourage planning for alignment to state standards rigor using district curriculum with appropriate success criteria to determine mastery.

NIET's services can be accessed through one or more of its research-based initiatives: *TAP: The System for Teacher and Student Advancement*; *NIET School Improvement Solutions*, and/or *NIET Teacher Leadership Series*. NIET is committed to work collaboratively with its partners to determine which approach and which components of each approach best support the district and schools to implement high quality curriculum and instruction and build teacher capacity and student achievement that is sustainable for the long term.

Since 2003, NIET has enjoyed strong and effective partnership with Louisiana school systems and schools. These partnership have achieved significant results in raising student achievement and closing achievement gaps in high-need schools. Partner districts include urban, rural, and suburban settings.

**VENDOR:** New Directions Educational Solutions

**CONTENT AREA:** English Language Arts

**ALIGNED TIER 1 PRODUCT:** Louisiana's ELA Guidebooks

**CONTACT:** Ginger Merritt, 318-614-4224, [gmerritt@newdirectionsedu.com](mailto:gmerritt@newdirectionsedu.com)

## VENDOR DESCRIPTION

New Directions Educational Solutions concentrates on districts' top priority needs as it relates to student achievement by collaborating closely with district and school personnel to attain success through professional learning, district-wide educational initiatives, and/or overall school improvement. Through extensive and ongoing trainings, consultants have the expertise and experience to plan, model, coach, and support teachers using Tier 1 Curriculum. With professional consultants, research-based processes, and data-driven accountability, New Directions offers a cohesive system that enables districts and schools to increase teacher effectiveness, close student achievement gaps, and create a culture of ongoing improvement.

## SAMPLE PARTNERSHIP SERVICES

For more information about partnership services, including customized packages and virtual PD, contact Ginger Merritt at 318-614-4224.

## COMPASS for IMPROVEMENT Cycle for District/School Partnership

**ANALYZE DATA and OBSERVE:** Consultants utilize the most current data from diagnostic, interim, formative, and state-wide assessments to establish needs as well as a baseline for growth. Teacher observations and conferences with district and school personnel are held to understand fidelity and use of the Louisiana Guidebooks curriculum. Consultants support school personnel to assess needs related to all learners including specific intervention plans for struggling learners, ELL students and students with IEPs.

**CUSTOMIZE PLANNING:** Our consultants apply their expertise and collaborate with school personnel to set goals and create a detailed plan of action focused on the following areas:

- Fidelity of Tier 1 high quality curricula use to prepare for instruction, including unpacking units, pacing, annotating lesson plans and identifying research based supports for struggling learners, students with IEPs and students learning English as a second language
- Effective lessons for all, including diverse learners, struggling learners, students with IEPs and students learning English as a second language
- Assessments reflective of instruction and learning
- Collective analysis of student work and needs
- Reflection by teachers of their own practice

**ENACT PLAN:** Our consultants vigorously work to model, coach and support teachers as they learn how to:

- Understand and embrace high quality, standards aligned unit based curriculum to plan with attention to text complexity and performance tasks
- Apply observation feedback practices to enrich and adjust their instruction
- Utilize instructional practices including: strategic grouping, Acceleration for ELL and SPED students, open-ended and differentiated questioning scaffolds as well as academic discourse, and curriculum-embedded performance tasks that maintain the rigor and learning outcomes of the written curriculum
- Provide strategic opportunities for EL learners and students with disabilities to build background knowledge and preview the text from Tier 1 curriculum
- Ensure that PLC time is used to analyze student work against the expectations of the Louisiana Standards and to inform interventions and future instruction.

New Directions' consultants help educators adhere to the implementation plan, monitor progress against goals, assess the effect on educator practice and student learning, and enhance the plan on a continuous basis.

**CONSISTENT MONITORING:** Using a collaborative system, consultants report on their work after each day of service so that progress can be tracked against the goals stated in the plan and next steps are transparent to district and school administration. Student outcomes and teacher capacity instruments are used to monitor and review progress with school and district educators.

**Continuation of the “Compass for Improvement Cycle”:** The New Directions improvement practice requires multiple cycles of analyzing data, customized planning, enacting the plan, and consistent monitoring and reflection. Continuing the cycle over time is imperative because it provides ongoing insights on accomplishments and progress. New Directions' consultants can assist educators as they monitor progress against goals and then start the cycle again because of the deep, job embedded support that is on-going. We diagnose obstacles affecting desired outcomes and then adjust the plan considering the progress made while building support for continual educator and student growth.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

A sample year-long partnership consists of the following supports:

- 5–7 days of **training for teachers** on effective planning practices and evidence-based strategies to support all students in reading, writing, speaking, and listening. We recommend at least two days in the summer, with the remaining days scheduled throughout the year.
- 2–6 days of **training and instructional walkthroughs for school leadership teams** to build their knowledge of the curriculum and strengthen teacher collaborative planning time (PLCs), observation and feedback, and school-based instructional systems.
- 3–4 days of **co-planning and instructional walkthroughs with district leaders** to identify trends in Guidebooks use, establish clear goals and next steps for improving literacy instruction across schools, and monitor progress towards those goals.

We partner with school and district leaders to customize our work and ensure that we meet the needs of novice and advanced educators, build on previous curriculum trainings, and align our work to existing district structures and priorities. We support both stand-alone districts and schools, as well as LEAs working in a consortium model (i.e., multiple charter schools, consortia of 2 or more smaller districts working together).

**VENDOR:** School Leadership Center

**ALIGNED TIER 1 PRODUCT:** Louisiana's ELA Guidebooks

**CONTACT:** Amy Hoyle, 504-267-7239, [ahoyle@slc-gno.org](mailto:ahoyle@slc-gno.org)

## VENDOR DESCRIPTION

The School Leadership Center (SLC) is a Louisiana-based non-profit organization dedicated to improving schools by inspiring and developing instructional leadership among educational leaders and, thereby, impact student achievement. SLC coaches work side by side with school leaders and teams to build school support structures that guide and monitor improved Guidebooks instructional practices throughout a school through onsite, job-embedded coaching. The School Leadership Center is proud of its positive impact in Louisiana's schools. A four-year longitudinal study shows that schools receiving SLC support experience more than a 50% greater increase in student achievement growth over state averages.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

School Leadership Center programs are customizable to meet the unique needs of every school or district. We partner with schools, networks, and districts to improve Guidebooks teaching and learning in the classroom through inquiry-based cycles of learning.

A current example of a long-term partnership is a Louisiana elementary school that implements Data Inquiry Cycle Coaching along with Curriculum Implementation Walk Throughs, where the SLC coach facilitates meetings with targeted grade bands. Throughout the year, the SLC Coach provides guidance and facilitation during grade level and content area common planning time. The coach also leads walkthroughs to inform professional development using data to identify trends in student work and instructional practices to implement a customized plan of action for improvement.

The coach supports the school team to develop a strong alignment across student data, instructional practices, curriculum implementation, and professional learning. This has resulted in teacher buy-in of a new curriculum and increased student success on standardized assessments.

**VENDOR:** School Empowerment Network

**CONTENT AREA:** English Language Arts

**ALIGNED TIER 1 PRODUCT:** Louisiana's Guidebooks

**CONTACT:** Ryan Schetelick, [ryan.schetelick@school empowermentnetwork.org](mailto:ryan.schetelick@school empowermentnetwork.org)

## SAMPLE LONG-TERM PARTNERSHIP MODEL

**Long-term Partnership Model:** The core of our work is based on research that effective professional learning incorporates three critical components:

**Core academic content embedded in exceptional instructional materials and aligned to research-based practices.** Teachers deserve daily access to instructional practices based in research. Deep study of high-quality instructional materials allows teachers to grow their knowledge over time and spread that knowledge to their colleagues. We call this the **“head”** of professional learning.

**Teacher-led communities that build both social capital and buy-in.** Teachers deserve to feel motivated and supported by their peers to learn and grow. In teacher-led communities, educators are more likely to buy in to their own development and work collaboratively with their colleagues to improve instruction. We call this the **“heart”** of professional learning.

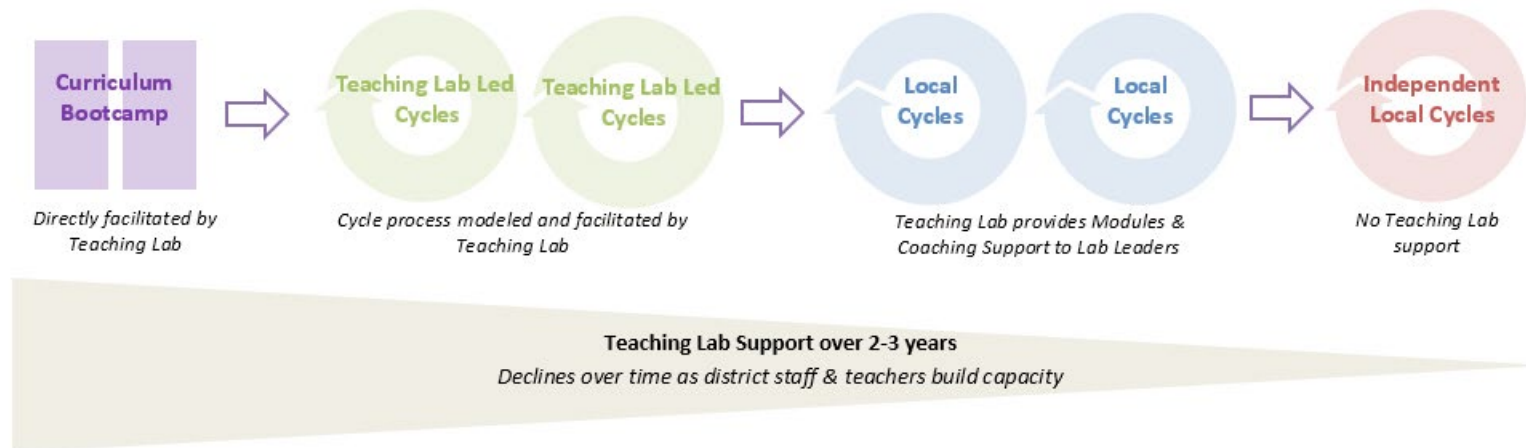

**Structured and repeated cycles of learning in the classroom.** Teachers deserve to learn from their efforts. Repeated cycles of learning afford teachers the time and space to reflect, incorporate new learning into practice, and verify changes to instruction using analysis of student work. We call this the **“habits”** of professional learning.

**We integrate these three components by creating “Labs” in schools and districts. Labs are often compared to PLCs.**

A **Lab** is a group of teachers of the same subject working with students in the same or similar grade levels within a network of schools. Labs are led by two or more **Lab Leaders**, who are experienced teachers and instructional coaches who support their colleagues’ development. Labs center their work on curriculum-specific professional learning **Content Modules** created by Teaching Lab and vetted by experts. Content Modules support repeated **Cycles** of learning that align with student-facing materials to drive teacher professional learning. Cycles last four to six weeks to allow for teachers to apply and evaluate new learning. Labs complete two to four Cycles each school year.

**Teaching Lab starts by directly facilitating this work, gradually releasing facilitation responsibility to Lab Leaders over time while supporting with session modules and coaching support. Eventually, systems run their own Local Cycles independently.**

## SAMPLE LONG-TERM PARTNERSHIP MODEL

A typical long-term pilot school partnership follows a three year model and includes:

### YEAR 1

- Teacher training beginning with entry level grades (Advancing Thinking Through Writing I)
- Access and support through TWR's Teacher Resource Library
- Teacher Material Review for participating teachers
- Site Visits including implementation observation, feedback, and coaching
- Assessment of student writing at the beginning, middle, and end of the school year for 3rd, 6th, or 9th grade class depending on grade band

### YEAR 2

- Training for a second cohort of teachers (Advancing Thinking Through Writing I)
- Previously-trained teachers have opportunity to deepen their understanding of The Hochman Method by taking Advancing Thinking Through Writing II (NYC) and subject-specific courses (online)
- Continued access and support through TWR's Teacher Resource Library, Teacher Material Review, and Site Visits including implementation observation, feedback, and coaching
- Assessment of entry grade plus the next grade up to review and support student progress over time
- Participation in Certification Level I

### YEAR 3

- Continued training (Advancing Thinking Through Writing I, Advancing Thinking Through Writing II, subject-specific courses)
- Continued access and support through TWR's Teacher Resource Library, Teacher Material Review, and Site Visits including implementation observation, feedback, and coaching
- Assessment of entry grade plus the next two grades up to review and support student progress over time
- Participation in Certification Levels I and II

### ELIGIBLE SCHOOLS MUST HAVE:

- Demonstrated student need
- An engaged principal committed to the method and teachers committed to successful implementation (no competing initiatives)
- Common planning time for teachers
- A coordinator who can facilitate the collection and submission of student and teacher work and support scheduling and feedback

## VENDOR DESCRIPTION

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

## SAMPLE PARTNERSHIP SERVICES

For more information about partnership services, including customized packages, contact Mary Jones ([mary.jones@tntp.org](mailto:mary.jones@tntp.org)) or visit [www.tntp.org](http://www.tntp.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

1. **Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.** TNTP will provide direct support to the district through a variety of avenues, including:
  - Leading learning walks,
  - Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
  - Student work analysis,
  - Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
  - Weekly consultation with district leaders.
2. **Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 400 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

## PEARSON PARTNERSHIP PLUS

The Pearson Partnership Plus Program provides customized staff development, consultation, and support for all aspects of the customer's product implementation. Services are delivered by Educational Specialists with many years of educational and product training experience. Beyond our traditional one to two-day workshops, the Partnership Plus Program includes a full suite of services that range from product training to implementation support and progress monitoring. In 140 days of service, Partnership Plus dedicated Specialists provide the needed support, training, and guidance to ensure that Pearson products are being implemented successfully and with fidelity.

The district benefits from the Educational Specialists' ability to tailor training modules to best meet the needs of a particular school, while ensuring that all staff members have continuous support, continuity, and consistency throughout a school district. Educational Specialists not only mentor and train teachers, administrators and school personnel, but also monitor progress regularly, interpret data and provide feedback through report analyses, and make recommendations to implementations in order to achieve maximum results.

## PARTNERSHIP PLUS PROGRAM BENEFITS FOR LOUISIANA SCHOOL DISTRICT

- Dedicated Education Specialist as a consultative partner
- 140 days training, support and guidance over 12 months
- Custom implementation planning that details goals, action steps, and progress monitoring measures
- Professional development delivered with a focus on learning progression to deepen classroom pedagogy over time
- Job-embedded training and support
- Professional development designed to target specific areas of need including education for English learners, math, literacy, and special education
- Professional development focused on building content knowledge instructional strategies
- Professional development that focuses on pedagogy that reveals student learning and assessment practices
- Ongoing progress monitoring including, implementation monitoring, data-driven decision-making, assessment, and data analysis of student performance and recommendations

## SAMPLE LONG-TERM PARTNERSHIP MODEL

*Wit & Wisdom* Great Minds partners with schools and districts to develop professional development plans appropriate to their teachers' and students' needs. *Wit & Wisdom* professional development and implementation support are designed to be flexible to meet those needs. While *Wit & Wisdom* users should always begin with *Launch Wit & Wisdom* and *Lead Wit & Wisdom* (for leaders), schools can vary session timing and sequence. The following chart lays out a typical sequence of professional development support for the first two years of implementation. All offerings are designed to be experienced by teachers (classroom and specialists), coaches, and school leaders.

PD Offering*	How it supports educators in meeting specific students' needsSession Description
<b>Implementation Guide</b> , a self-study resource that explains the curriculum, why it works, and how to implement it	The Implementation Guide includes a section detailing the specific ways that <i>Wit &amp; Wisdom</i> 's learning design supports both English learners and striving readers. Educators can use this information to prepare and implement lessons with intentionality to meet these students' needs.
<b>Lead Wit &amp; Wisdom</b> , 6-hour in-person	Builds leaders' understanding of the what and why of <i>Wit &amp; Wisdom</i> ; guides leaders to plan and prepare for successful implementation.
<b>Launch Wit &amp; Wisdom</b> , 6-hour in-person	Introduces new adopters to <i>Wit &amp; Wisdom</i> 's research foundation, learning design, approach to knowledge building and complex texts, and module and lesson components.
<b>Getting Started with Geodes,<sup>®</sup> Levels 1 and 2</b> , 3-hour in-person	Introduces educators to Geodes' research foundation, their accessible, knowledge-building approach, and Level 1 and 2 collection components, and equips them with a flexible framework for planning Geodes instruction.
<b>Launch Wit &amp; Wisdom</b> , 6-hour in-person session introducing the curriculum's learning design	As they begin to learn <i>Wit &amp; Wisdom</i> 's learning design, educators consider a type of student they want to reach during the school year and the teaching challenges involved in doing so. Throughout the session, educators explicitly consider how <i>Wit &amp; Wisdom</i> is designed to help meet these students' needs.

For more information about partnership services, including customized packages, contact [PD@greatminds.org](mailto:PD@greatminds.org) or visit [www.greatminds.org/english/pd](http://www.greatminds.org/english/pd).

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

Great Minds, as creator of Wit and Wisdom, can also be reached at [englishsupport@greatminds.org](mailto:englishsupport@greatminds.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

1. **Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.** TNTP will provide direct support to the district through a variety of avenues, including:
  - Leading learning walks,
  - Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
  - Student work analysis,
  - Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
  - Weekly consultation with district leaders.
2. **Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 400 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Agile Mind's model of professional development introduces and sustains over time high-yield strategies in the use of Agile Mind's programs and tools to increase student engagement and achievement in mathematics. To achieve the specific objectives of our partner schools and districts while accommodating the challenges they face—such as the costs of preparation time for teachers and out-of-class time for professional development—a long-term partnership typically includes a mix of services for teachers and leaders that leverage in-person support and next-generation technology.

<b>Agile Mind Implementation Planning</b>	We work with district leaders in Year 1 to establish program goals and intended outcomes, define expectations, and schedule appropriate services for participating teachers, students, and administrators. The District Implementation Plan is then revised each subsequent year as progress is made and needs change.
<b>Curriculum Alignment and Integration</b>	Agile Mind Advisors support district personnel in creating a plan to align curriculum, homework, formative assessment, and test prep resources with Agile Mind to ensure optimal fit with district needs. Districts using Agile Assessment may pursue additional facilitated support.
<b>Agile Mind Mid-year/End of Year Reviews</b>	Agile Mind professional staff meet with district leadership mid-year to review implementation progress and to ensure the district realizes maximum value from program participation. They review scheduled and completed services, implementation progress, and teacher and student participation data. Through this analysis and related discussions, Advisors plan the remaining services and adjust district- and school-based support. At the end of the year, Agile Mind Advisors provide a summary that reflects the year's progress and challenges. This includes an analysis of progress toward goals, teacher and student participation data, and other measures of success identified in the District Implementation Plan. This review informs new district program goals and expectations for the upcoming year.
<b>Agile Mind Teacher and Leader Professional Development</b> <b>Institutes</b> <b>Regional Seminars</b> <b>Face-to-face and Virtual</b> <b>Advisor Services</b>	Starting with Agile Mind Essentials and through Advisor Services during the school year, teachers develop fluency in planning and delivering instruction using embedded professional resources, in particular the Advice for Instruction; build a taxonomy of instructional practices that will support student engagement and conceptual understanding; become familiar with the robust set of professional tools embedded in the system to enable their meaningful use during the school year; develop action plans and timetable for using the programs with students. As implementation progresses to year 2 and year 3, professional development experiences deepen, and teachers advance their practice. Teachers collaborate with other teachers who are experienced using Agile Mind during sessions designed explicitly for their needs. Sessions focus on areas including, but not limited to: advanced strategies for student engagement, developing student discourse, increasing rigor, differentiating instruction for language learners and other special populations of students, formative assessment, enhancing student use of practice standards; and supporting success on next-generation assessments.

**VENDOR:** Charles A. Dana Center, The University of Texas at Austin

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** Agile Mind

**CONTACT:** Katey Arrington, Manager of K-12 Services, 512-475-6337, [katey.arrington@austin.utexas.edu](mailto:katey.arrington@austin.utexas.edu)

## VENDOR DESCRIPTION

The Charles A. Dana Center offers a coherent portfolio of professional development sessions to enrich your content knowledge and professional toolset. Our sessions are most effective when experienced in series by teams from your school or district. Our standards-aligned leadership, mathematics, and science sessions are for educators and education leaders across the nation. While we offer professional support in various configurations—from intensive one-to-two-day engagements to yearlong academies with multiple sessions—our strong preference is to work with teachers and leaders as part of a long-term coherent effort to improve your district's instructional practices. Many of our short sessions are designed to provide you with a gateway to our comprehensive K-12 systems services.

Formative Assessment Collaborative	District teams engage in planning and reflection tools, with formative assessment as the key driver, as they collaboratively plan for key assessment points within a learning progressions in Agile Mind. They will select rigorous tasks from Agile Mind or Agile Assessment to engage students at these assessment points and implement strategies to solicit evidence from all students and assessment data provided by the tools in Agile Mind to plan for instructional adjustments based on the evidence collected.	Blended	Approx 5 days (can be flexible with district plans)	✓	✓			35	\$36,820
Integrating Mathematical Practices and Content	Participants will experience and plan for instruction in the classroom using Agile Mind materials that leverage the mathematical practices. Practice-forward tasks available in Agile Mind are highlighted to show how, with standards aligned-instruction guided by high-quality materials, students will be able to understand and use math content and employ the habits of mind of successful mathematicians to problem solve.	Blended	13-days (flexible based on district plans)	✓	✓			35	\$62,000

For more information about partnership services, including customized packages, contact Katey Arrington [katey.arrington@austin.utexas.edu](mailto:katey.arrington@austin.utexas.edu) or visit [www.utdanacenter.org](http://www.utdanacenter.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

The Dana Center's work focuses on K-14 mathematics and science education, with an emphasis on systems approach to improving student engagement, motivation, persistence, and achievement. We offer an interdependent set of professional learning experiences for teachers, building leaders, and district leaders built around an annual cycle that iterates and adapts over time. The intentional design of improvement cycles provides strategies that can become normative practices for reflection and learning, a sustainable approach to improvement efforts in mathematics and science, and a generalizable model that can be adapted and applied to other content areas. We offer a range of services that flexibly adapt and are delivered to meet the needs of diverse districts in support of teacher effectiveness efforts in mathematics.

The Dana Center partners with many districts using long-term models and strategic implementations to achieve large impacts. An example would include working with teams of teachers over several years to plan high-quality, content-rich, curriculum specific instruction that integrates mathematical practices with content for deep learning. These experiences build teachers' capacity to continue learning outside of the sessions, and shift greater responsibility to the teams for continuous improvement over time. Simultaneously, teams of leaders would have customized learning experiences for their role in the improvement cycles to increase their ability to support and strengthen the implementation of that high-quality instruction through appropriate and structured leadership behaviors. Leaders actively participate and report back to the group about progress on shared goals for application of new learning, increasing complexity of their supports for educators in their schools as time progresses.

**CONTACT:** Jordan Brophy-Hilton, 919-579-0377, [jordan.brophy-hilton@instructionpartners.org](mailto:jordan.brophy-hilton@instructionpartners.org)

## VENDOR DESCRIPTION

Instruction Partners is a nonprofit that partners with schools and parishes to strengthen daily instruction. We help school and parish teams understand the answers to two questions: 1) Are we teaching the right content? and 2) Are all students supported to learn the content that is taught? We then work with school teams to develop a game plan that leverages curriculum improvements, teacher and leader professional development, and coaching. Through this shoulder-to-shoulder support, Instruction Partners empowers leaders to build their capacity to support instruction and help students learn more. Instruction Partners supports both Tier 1 instruction and students behind grade level. Schools that have worked with Instruction Partners have seen notable gains in daily instruction and student growth.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Curriculum Launch	Support teachers using Eureka. Recommended for new teachers or teachers changing grades.	f2f	2 days	✓		✓	✓	25	\$6,600

For more information about partnership services, including customized packages, contact Jordan Brophy-Hilton or visit [www.instructionpartners.org](http://www.instructionpartners.org).

Instruction Partners works with school and system leadership teams through cycles of improvement to **observe** teaching and learning, make a practical **plan** for improvement, **develop** teacher and leader capacity to carry out the plan, and **support** follow-through. We repeat this cycle multiple times within the year to drive improvements in teaching and learning. Through professional development, standards-specific feedback, and coaching leaders, we empower schools and systems to build a culture of instructional excellence. This cycle repeats in each year of partnership to address different challenges and engage more schools and educators.

Every partnership is unique. Designing a partnership that makes sense for each school and parish is an important part of the process. At the start of each school year, we help our partners prioritize their areas for support:

		Parish A, Year 1	Parish A, Year 2
<b>1. Pick your schools</b>	<ul style="list-style-type: none"> <li>Do you want to focus on all schools or specific subset?</li> <li>Do you have a new leader coming into a school that may need support?</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>	<ul style="list-style-type: none"> <li>3 schools</li> </ul>

## FULL CURRICULUM IMPLEMENTATION SUPPORT – 3 YEAR PARTNERSHIP

### Phase 1: Design Work and Initial Staff and Leader Professional Development

- Develop scope and sequence for implementation; this usually includes a focus on maximizing time and curriculum fidelity first, followed by stages focused on improving in-the-moment data collection and feedback by teachers, discourse and questioning moves, differentiation and adjustment, and support for students with disabilities, English learners, and other special populations.
- Train teaching staff of school, network, or cluster of schools on components of the curriculum and effective intellectual preparation.
- Train leaders and coaches to use Real-Time Coaching moves, one-on-one teacher coaching, and group professional development to support first stage of curriculum implementation scope and sequence.

### Phase 2: Ongoing Staff Professional Development and Leader Coaching

- Launch each subsequent stage of implementation with PD for teaching staff.
- Train leaders and coaches – through professional development and on-site modeling – to provide effective follow up coaching for each stage of implementation scope and sequence.

### Phase 3: Data Review, Responsive Design Work

- Review student progress toward key benchmarks; collaborate with school/network/cluster leadership to adjust implementation scope and sequence and/or types of coaching supports.
- Plan and deliver professional development sessions for teachers and leaders/coaches.

### Phase 4: Leader Coaching and Capacity Building

- Provide professional development and modeling for leaders/coaches on intellectual preparation and real-time coaching practices.
- Build a forward-looking scope and sequence for continued effective implementation of high-quality curriculum, including application of lessons learned to specific school/network/cluster needs, such as more effective use of data cycles to inform teacher training or more targeted support of special populations (SPED, ELL) within curriculum implementation and teacher training systems.

## NETWORK/CLUSTER AND SCHOOL-BASED LEADERSHIP TRAINING – 1 YEAR PARTNERSHIP

### Phase 1: Design Work and Initial Leader Professional Development

- Develop scope and sequence for implementation.
- Train leaders and coaches to use Real-Time Coaching moves, one-on-one teacher coaching, and group professional development to support first stage of curriculum implementation scope and sequence.

### Phase 2: Regular, On-site Coaching

- Train leaders and coaches – through professional development and on-site modeling – to provide effective follow up coaching for each stage of implementation scope and sequence.

### Phase 3: Capacity Building, Data Review, and Focus on Special Populations

- Review student progress toward key benchmarks; collaborate with school/network/cluster leadership to adjust implementation scope and sequence and/or types of coaching supports.
- Build a forward-looking scope and sequence for continued effective implementation of high-quality curriculum, including application of lessons learned to more targeted support of special populations (SPED, ELL) within curriculum implementation and teacher training systems

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Leading Educators works with school systems to put professional development where it belongs: back in schools. We partner with districts and CMOs over a period of 2–5 years to build customized, context-specific professional learning systems to reach their instructional priorities. We do this by:

- Working with district leaders to establish the enabling conditions key to the successful implementation of high-quality professional learning systems that live within schools.
- Providing job-embedded training, coaching, and other supports that are grounded in data and the reality of teachers' daily practice.
- Delivering context-specific programming that develops teachers' leadership, equity, and subject matter expertise in English, language arts, and math.
- Supporting teacher leaders in implementing Content Cycles to build their capacity as designers and facilitators of content growth. Planning for gradual release of program design and teams support so districts can sustain success over the long-term.

### SPOTLIGHT OF A LONG-TERM LEADING EDUCATORS PARTNERSHIP:

We began our partnership with [DC Public Schools \(DCPS\)](#) in 2013 as part of Teacher Leadership Innovation - a teams-based, instruction-focused pilot program that operated in seven schools. The partnership evolved into the “[LEarning together to Advance our Practice](#)” ([LEAP](#)) initiative that continues in all 115 of the district's schools.

Through LEAP, DCPS has prioritized elevating instruction across the entire school system, building both the [capacity of teachers to lead changes in the quality of teaching](#) that takes place in their school, and the capacity of DCPS to embed and sustain this work in alignment with other initiatives. By the second year of the program, we worked with DCPS to train about 600 teacher, school, and district leaders who will impact over 48,000 students each year.

**VENDOR: National Institute for Excellence in Teaching (NIET)**

**CONTENT AREA: Mathematics**

**ALIGNED TIER 1 PRODUCT: Eureka Math**

**CONTACT: Dr. Josh Barnett, 479-387-8973, [jbarnett@niet.org](mailto:jbarnett@niet.org)**

## VENDOR DESCRIPTION

In over 20 years of work, NIET has partnered with high-need schools and districts to implement cohesive school improvement systems focused on quality professional development, strong curriculum, and effective teaching and assessment practices. Each of NIET's research-based strategies supports the growth of school leaders, teachers and students, building a culture of continuous improvement in every building. Our onsite support and trainings are grounded in the expectations of the Louisiana standards and Tier 1 curricula. NIET meets partners where they are and creates tailored supports around key elements proven to accelerate successful curriculum implementation and teacher and student growth. Our school improvement team consists of educators who have lived this work as teachers, principals or superintendents in high-need schools, and mastered the strategies that lead to school improvement.

For more information about partnership services, including customized packages, contact Dr. Josh Barnett ([jbarnett@niet.org](mailto:jbarnett@niet.org)) 479-387-8973 or visit the [www.niet.org](http://www.niet.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

NIET partners with districts to improve instruction and outcomes for students. All onsite support and trainings are designed to meet the specific needs of the district and/or school, and, as such are customizable and approached through different entry points based on needs assessments and ongoing review of implementation. For example:

- Assist district and school level leaders with developing comprehensive school plans to increase student achievement in the core content areas and teacher pedagogy.
- Lead, participate and coach district and school level professional development focused on monitoring the quality of curriculum implementation for depth and rigor with the alignment of instruction and student growth.
- Train, support and coach teacher leaders in planning and delivering job-embedded professional development around the quality use of curriculum, instructional best practices, and the analysis of associated student work.
- Support and coach district, school and teacher leaders to identify curricular, teacher and student level needs which includes the following: planning, observation and feedback, team teaching, modeling, and other needs identified by the district.
- Train and support school level leaders to coach teachers in developing reflective partnerships that encourage planning for alignment to state standards rigor using district curriculum with appropriate success criteria to determine mastery.

NIET's services can be accessed through one or more of its research-based initiatives: *TAP: The System for Teacher and Student Advancement*; *NIET School Improvement Solutions*, and/or *NIET Teacher Leadership Series*. NIET is committed to work collaboratively with its partners to determine which approach and which components of each approach best support the district and schools to implement high quality curriculum and instruction and build teacher capacity and student achievement that is sustainable for the long term.

Since 2003, NIET has enjoyed strong and effective partnership with Louisiana school systems and schools. These partnership have achieved significant results in raising student achievement and closing achievement gaps in high-need schools. Partner districts include urban, rural, and suburban settings.

**VENDOR:** New Directions Educational Solutions

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** Eureka

**CONTACT:** Ginger Merritt, 318-614-4224, [gmerritt@newdirectionsedu.com](mailto:gmerritt@newdirectionsedu.com)

## VENDOR DESCRIPTION

New Directions Educational Solutions concentrates on districts' top priority needs as it relates to student achievement by collaborating closely with district and school personnel to attain success through professional learning, district-wide educational initiatives, and/or overall school improvement. Through extensive and ongoing trainings including Eureka and ZEARN national certification, consultants have the expertise and experience to plan, model, coach, and support teachers using Tier 1 Curriculum. With professional consultants, research-based processes, and data-driven accountability, New Directions offers a cohesive system that enables districts and schools to increase teacher effectiveness, close student achievement gaps, and create a culture of ongoing improvement.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost

For more information about partnership services, including customized packages and virtual PD, contact Ginger Merritt at 318-614-4224.

## COMPASS for IMPROVEMENT Cycle for District/School Partnership

**ANALYZE DATA and OBSERVE:** Consultants utilize the most current data from diagnostic, interim, formative, and state-wide assessments to establish needs as well as a baseline for growth. Teacher observations and conferences with district and school personnel are held to understand fidelity and use of the Louisiana Guidebooks curriculum. Consultants support school personnel to assess needs related to all learners including specific intervention plans for struggling learners, ELL students and students with IEPs.

**CUSTOMIZE PLANNING:** Our consultants apply their expertise and collaborate with school personnel to set goals and create a detailed plan of action focused on the following areas:

- Fidelity of Tier 1 high quality curricula use to prepare for instruction, including unpacking units, pacing, annotating lesson plans and identifying research based supports for struggling learners, students with IEPs and students learning English as a second language
- Effective lessons for all, including diverse learners, struggling learners, students with IEPs and students learning English as a second language
- Assessments reflective of instruction and learning
- Collective analysis of student work and needs
- Reflection by teachers of their own practice

**ENACT PLAN:** Our consultants vigorously work to model, coach and support teachers as they learn how to:

- Understand and embrace high quality, standards aligned unit based curriculum to plan with attention to text complexity and performance tasks
- Apply observation feedback practices to enrich and adjust their instruction
- Utilize instructional practices including: strategic grouping, Acceleration for ELL and SPED students, open-ended and differentiated questioning scaffolds as well as academic discourse, and curriculum-embedded performance tasks that maintain the rigor and learning outcomes of the written curriculum
- Provide strategic opportunities for EL learners and students with disabilities to build background knowledge and preview the text from Tier 1 curriculum
- Ensure that PLC time is used to analyze student work against the expectations of the Louisiana Standards and to inform interventions and future instruction.

New Directions' consultants help educators adhere to the implementation plan, monitor progress against goals, assess the effect on educator practice and student learning, and enhance the plan on a continuous basis.

**CONSISTENT MONITORING:** Using a collaborative system, consultants report on their work after each day of service so that progress can be tracked against the goals stated in the plan and next steps are transparent to district and school administration. Student outcomes and teacher capacity instruments are used to monitor and review progress with school and district educators.

**Continuation of the “Compass for Improvement Cycle”:** The New Directions improvement practice requires multiple cycles of analyzing data, customized planning, enacting the plan, and consistent monitoring and reflection. Continuing the cycle over time is imperative because it provides ongoing insights on accomplishments and progress. New Directions' consultants can assist educators as they monitor progress against goals and then start the cycle again because of the deep, job embedded support that is on-going. We diagnose obstacles affecting desired outcomes and then adjust the plan considering the progress made while building support for continual educator and student growth.

For more information about partnership services, including customized packages, contact Ethan Mitnick or visit [www.schoolkitgroup.com](http://www.schoolkitgroup.com).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

A sample year-long partnership consists of the following supports:

- 5–6 days of **training for teachers** to build knowledge of standards-aligned math instruction and effective planning using the curriculum. We recommend at least two days in the summer, with the remaining days scheduled throughout the year.
- 2–6 days of **training and instructional walkthroughs for school leadership teams** to build their knowledge of the curriculum and strengthen teacher collaborative planning time (PLCs), observation and feedback with EngageNY, and school-based instructional systems.
- 3–4 days of **co-planning and instructional walkthroughs with district leaders** to identify trends in curriculum use, establish clear goals and next steps for improving mathematics instruction across schools, and monitor progress towards those goals.

We partner with school and district leaders to customize our work and ensure that we meet the needs of novice and advanced educators, build on previous curriculum trainings, and align our work to existing district structures and priorities. We support both stand-alone districts and schools, as well as LEAs working in a consortium model (i.e., multiple charter schools, consortia of 2 or more smaller districts working together).

**VENDOR:** Teach 4 L.I.F.E. Enterprise, LLC

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** Eureka Math (Grades K–6)

**CONTACT:** Johnette Roberts Ballard, 225-936-2254, [Teach4life.llc@gmail.com](mailto:Teach4life.llc@gmail.com)

## VENDOR DESCRIPTION

Teach 4 L.I.F.E. Enterprise, LLC provides engaging professional learning experiences in mathematics with teachers, instructional leaders and administrators to transform mathematics instruction and impact student learning. To implement reforms in mathematics education, such as the Louisiana Student Standards for Mathematics and implementation of a Tier 1 curriculum such as Eureka Math, teachers need time to learn the mathematics more deeply, reflect on current practices, and explore practical methods of enhancing instruction.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Content Sessions	Focused grade band or grade level content sessions on the following topics: Place Value (Grades K – 2 or Grades 3 – 5) Fluency (Grades K – 2 or Grades 3 – 5) Model Drawing with the Tape Diagram (Grades K – 2 or Grades 3 – 5) Progression of Fractions (Grades 3 – 5)	f2f and virtual	(6 hours per day; f2f) variable virtual times	✓	✓	✓	✓	up to 20	\$2,300 (6 hours – f2f) contact for virtual pricing
Learning Walks	Non-Evaluative, evidence-based, student-centered Learning Walks, driven by a well-defined protocol, to obtain a “snapshot” of the learning environment and to support the fidelity of curriculum implementation	f2f	1 to 2 days	✓	✓	✓	✓	varies	contact for pricing
Full-Year Partnership	Comprehensive professional learning system customized to build the capacity of the math teachers and teacher leaders to boost student learning and growth in mathematics. Teachers will be better able to successfully engage students in conceptually understanding and applying math concepts as aligned with the Louisiana Student Standards for Mathematics.	blended	school year	✓	✓	✓	✓	up to 8	\$50,000

## SUMMER

Grade band professional learning sessions focused on one or a combination of the following:

- Understanding the progression of primary models and strategies within a grade band;
- fluency focus: conceptual understanding, required thinking, strategies, connection to content, growth strategies, incorporating games;
- introduction to problem solving with model drawing (connection to algebra, model drawing growth system, model drawing resources for teachers)

## SCHOOL YEAR

School year support may be customized based on school's implementation level and needs. Possible services may include:

- Content-based professional learning sessions (up to 6 hrs/day) to support implementation of the LSSM and the Eureka Math curriculum
- Grade level or grade band sessions
- Student-Centered Learning Walks with actionable feedback
- Focus on fluency, problem solving and fractions through professional learning sessions with progress monitoring.

# SAMPLE LONG-TERM PARTNERSHIP MODEL

**VENDOR:** Charles A. Dana Center, The University of Texas at Austin

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** EngageNY

**CONTACT:** Katey Arrington, Manager of K-12 Services, 512-475-6337, [katey.arrington@austin.utexas.edu](mailto:katey.arrington@austin.utexas.edu)

## VENDOR DESCRIPTION

The Charles A. Dana Center offers a coherent portfolio of professional development sessions to enrich your content knowledge and professional toolset. Our sessions are most effective when experienced in series by teams from your school or district. Our standards-aligned leadership, mathematics, and science sessions are for educators and education leaders across the nation. While we offer professional support in various configurations—from intensive one-to-two-day engagements to yearlong academies with multiple sessions—our strong preference is to work with teachers and leaders as part of a long-term coherent effort to improve your district's instructional practices. Many of our short sessions are designed to provide you with a gateway to our comprehensive K-12 systems services.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Mathematics Content Modules	The content modules provide high-quality, content-rich, and curriculum specific professional learning experiences. Participants will engage in deep mathematical learning, connect that learning to instruction guided by the ENY curriculum, and use structured tools to plan instruction.	In Person	6 days (can be fewer)	✓	✓			30	\$39,500
Instructional Leadership Academy	Participants learn how to use the Dana Center's proven tools and strategies to support the use of the tier 1 curriculum EngageNY across a school or district, and focus on continuous improvement of instruction and assessment using the curriculum tools. ILA includes the Collect, Analyze, Reflect, and Act school improvement process and a unique approach to classroom walkthroughs. The target audience for ILA is school and district leaders—instructional coaches, administrators, or lead teachers. ILA might include leaders from one school, multiple schools in a district, or multiple districts.	In Person	8 days	✓	✓			35	\$49,600

For more information about partnership services, including customized packages, contact Katey Arrington [katey.arrington@austin.utexas.edu](mailto:katey.arrington@austin.utexas.edu) or visit [www.utdanacenter.org](http://www.utdanacenter.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

The Dana Center's work focuses on K-14 mathematics and science education, with an emphasis on systems approach to improving student engagement, motivation, persistence, and achievement. We offer an interdependent set of professional learning experiences for teachers, building leaders, and district leaders built around an annual cycle that iterates and adapts over time. The intentional design of improvement cycles provides strategies that can become normative practices for reflection and learning, a sustainable approach to improvement efforts in mathematics and science, and a generalizable model that can be adapted and applied to other content areas. We offer a range of services that flexibly adapt and are delivered to meet the needs of diverse districts in support of teacher effectiveness efforts in mathematics.

The Dana Center partners with many districts using long-term models and strategic implementations to achieve large impacts. An example would include working with teams of teachers over several years to plan high-quality, content-rich, curriculum specific instruction that produces deep learning. These experiences build teachers' capacity to continue learning outside of the sessions, and shift greater responsibility to the teams for continuous improvement over time. Simultaneously, teams of leaders would have customized learning experiences for their role in the improvement cycles to increase their ability to support and strengthen the implementation of that high-quality instruction through appropriate and structured leadership behaviors. Leaders actively participate and report back to the group about progress on shared goals for application of new learning, increasing complexity of their supports for educators in their schools as time progresses.

**VENDOR: TNTP**

**CONTENT AREA: Mathematics**

**ALIGNED TIER 1 PRODUCT: Eureka Math**

**CONTACT: TNTP, 718-233-2800, [info@tntp.org](mailto:info@tntp.org)**

## VENDOR DESCRIPTION

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Eureka Math Support	<p>TNTP provides a variety of school-based instructional coaching support based on the context and need of target districts. TNTP works directly with PLC leads, teacher leaders, instructional coaches and teachers to:</p> <ul style="list-style-type: none"> <li>• Build ongoing understanding of the structure and research behind the curriculum, and how to make strategic adaptations, while maintaining the integrity of the program</li> <li>• Understand the tenets of effective instructional coaching models to support co-development of school or district based coaching models centered on content and curriculum</li> <li>• Co-develop a school or district-wide strategic support plan integrating PLC support, professional development, instructional coaching and curriculum through continuous development cycles</li> <li>• Develop protocols to support teacher understanding of the standards and curricula, including student work protocols, video protocols and lesson preparation protocols</li> </ul>	<p>School-based coaching</p> <p>Virtual coaching</p> <p>Lesson planning and practice</p>	customized	✓	✓	✓		customized	customized

For more information about partnership services, including customized packages, contact Mary Jones ([mary.jones@tntp.org](mailto:mary.jones@tntp.org)) or visit [www.tntp.org](http://www.tntp.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

1. **Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.** TNTP will provide direct support to the district through a variety of avenues, including:
  - Leading learning walks,
  - Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
  - Student work analysis,
  - Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
  - Weekly consultation with district leaders.
2. **Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 400 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

**VENDOR:** UnboundEd Learning

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** Eureka Math K-11

**CONTACT:** Joyce Macek, 917-392-1885, [joyce.macek@unbounded.org](mailto:joyce.macek@unbounded.org)

## VENDOR DESCRIPTION

Established in 2015 to ensure the preservation of EngageNY - New York State's critically acclaimed and widely used, free K12 math and ELA curriculum - and extend its use by digitizing and adapting it to support students with unfinished learning, UnboundEd provides free, standards-aligned instructional resources, immersive training through two week-long Standards Institutes, and related programs for teachers and leaders in pursuit of equity. The UnboundEd team knows from experience the hard work educators do every day to help their students meet the challenges set by higher standards. UnboundEd is dedicated to providing free, standards-aligned instructional content, opportunities for capacity building, and professional development for teachers and leaders who serve students of color and students living in poverty.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost
Standards Institute Math Training for grades 6-8	These sessions, delivered in a conference center twice a year, address adapting an aligned scope and sequence and understanding, adapting, and implementing a module of the EngageNY curriculum for grades 6-8. Study the mathematical shifts of focus, coherence and rigor through examining standards-aligned tasks and activities. Understand the structure of the standards as well as the language and meaning of the standards. Gain a deeper understanding of what content is prioritized and dive into the ideas of coherence within and across grades, with a focus on identifying prerequisite standards. Examine the standards to understand what is meant by conceptual understanding, procedural skill and fluency, and application, and understand why rigor is important.	f2f	5 days	✓				N/A	\$2,300 per person

For more information about partnership services, including customized packages, contact Joyce Macek at [joyce.macek@unbounded.org](mailto:joyce.macek@unbounded.org) or visit [www.unbounded.org](http://www.unbounded.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

UnboundEd's capacity building programs operate at the intersection of the standards and equitable instructional practices, designed explicitly to close the education provision gap caused by systemic bias and racism at every level of the education ecosystem. We believe sustained and scaled change is possible by developing vertical cohorts of educators within systems, whose roles cross hierarchical lines and who become change agents able to catalyze and support the effective, equity-focused implementation of high-quality, standards-aligned materials. When placed within UnboundEd's three-year capacity building learning arc, these cohorts are able to affect the spheres of influence around them and by extension, their systems as a whole.

UnboundEd offers systems and networks four reinforcing programs that are grounded in our five day [Standards Institute](#), a transformative professional development experience for educators. Each of our programs actively engages educators in and around high-quality curricular materials and pedagogical content knowledge, while also directly confronting and pushing them to become aware of the role that race plays in their system and in their own work. We build pedagogical content knowledge within the context of equity and bias so that educators can recognize and deliver unbiased instruction to serve all students effectively. This combination of equitable instructional practices coupled with content knowledge and skills creates the effective professional learning environments needed to disrupt the cycle of institutional racism and create opportunities for all of our students to thrive.

1. *Standards Institute: Pathway I* for first time participants (days 1-5 of learning appropriate for roles of all levels within a system's hierarchy)
2. *Standards Institute: Pathway II* for returning attendees only (days 6-10 of learning appropriate for roles of all levels within a system's hierarchy)
3. *Equity Influencer Residency* for change agents who impact the quality of curriculum and instruction across multiple classrooms, at the "grassroots" level
4. *Chief Academic Officer Academy* for highly qualified instructional leaders who have the support they need to cause significant change at the "grasstops"

Both the *Equity Influencer Residency (EIR)* and *Chief Academic Officer (CAO) Academy* programs work to build a system's capacity to create change by training cohorts of leaders who can influence decision-making across multiple channels. In order to build capacity that is sustainable over the long-term, we recommend a learning arc where a system's team members are strategically selected and organized by subject and/or gradeband to progress through UnboundEd's programs over the course of three years. This three-year learning arc is a key feature in being able to promote deep learning and change through multiple high-intensity touch points, intensive progress monitoring, authentic relationship building, and contextualized coaching. Table 1 (below) is an example of a three-year capacity building system-wide learning and implementation arc.

Professional Learning combined with the digital and print IM math curriculum presents an avenue for teachers to grow and watch their students, in turn, mature into better mathematicians. The certified training also provides support and clarity to educators and administrators while creating an avenue of engagement and deeper understanding.

This isn't your typical professional learning opportunity. IM Certified Training is taught by IM Certified Facilitators who understand that each teacher's needs is unique. Districts select the professional learning experience that best meets their needs—from an introductory session, to year-long support, to a three-year development package that builds teacher, coach, and leader capacity.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Leading Educators works with school systems to put professional development where it belongs: back in schools. We partner with districts and CMOs over a period of 2–5 years to build customized, context-specific professional learning systems to reach their instructional priorities. We do this by:

- Working with district leaders to establish the enabling conditions key to the successful implementation of high-quality professional learning systems that live within schools.
- Providing job-embedded training, coaching, and other supports that are grounded in data and the reality of teachers' daily practice.
- Delivering context-specific programming that develops teachers' leadership, equity, and subject matter expertise in English, language arts, and math.
- Supporting teacher leaders in implementing Content Cycles to build their capacity as designers and facilitators of content growth. Planning for gradual release of program design and teams support so districts can sustain success over the long-term.

### SPOTLIGHT OF A LONG-TERM LEADING EDUCATORS PARTNERSHIP:

We began our partnership with [DC Public Schools \(DCPS\)](#) in 2013 as part of Teacher Leadership Innovation - a teams-based, instruction-focused pilot program that operated in seven schools. The partnership evolved into the “[LEarning together to Advance our Practice](#)” ([LEAP](#)) initiative that continues in all 115 of the district's schools.

Through LEAP, DCPS has prioritized elevating instruction across the entire school system, building both the [capacity of teachers to lead changes in the quality of teaching](#) that takes place in their school, and the capacity of DCPS to embed and sustain this work in alignment with other initiatives. By the second year of the program, we worked with DCPS to train about 600 teacher, school, and district leaders who will impact over 48,000 students each year.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

McGraw-Hill offers a range of professional learning options and we are committed to collaborating with educators and district leaders in Louisiana to support student and teacher success and ensure effective implementations of Illustrative Mathematics.

McGraw-Hill strives to provide opportunities for all teachers during initial and subsequent years of implementation.

- ✓ **Implementation Training** prepares teachers to implement the program in the classroom
- ✓ **Follow-Up Implementation Training** supports teachers in continued success in the classroom
- ✓ **Personalized and Localized Support** ensures every teacher has the support they need to succeed

### IMPLEMENTATION

As your partner, McGraw-Hill strives to ensure all teachers have the training that will allow them to implement new programs successfully. Illustrative Mathematics trainings use an implementation model driven by the Illustrative Mathematics Development Teams. This helps maintain the fidelity of the program for increased student success. Districts will also have the full support of our highly trained team of curriculum specialists, many of whom are certified IM facilitators.

### ONGOING PROFESSIONAL LEARNING

McGraw-Hill offers the full *Illustrative Mathematics* professional learning catalog of courses that support. For more information about partnership services, including customized packages, contact Sallie Patton, District Manager at (727) 253-2992 or [sallie.patton@mheducation.com](mailto:sallie.patton@mheducation.com) or visit [mheducation.com/prek-12](https://mheducation.com/prek-12).

**VENDOR:** New Directions Educational Solutions

## COMPASS for IMPROVEMENT Cycle for District/School Partnership

**ANALYZE DATA and OBSERVE:** Consultants utilize the most current data from diagnostic, interim, formative, and state-wide assessments to establish needs as well as a baseline for growth. Teacher observations and conferences with district and school personnel are held to understand fidelity and use of the Louisiana Guidebooks curriculum. Consultants support school personnel to assess needs related to all learners including specific intervention plans for struggling learners, ELL students and students with IEPs.

**CUSTOMIZE PLANNING:** Our consultants apply their expertise and collaborate with school personnel to set goals and create a detailed plan of action focused on the following areas:

- Fidelity of Tier 1 high quality curricula use to prepare for instruction, including unpacking units, pacing, annotating lesson plans and identifying research based supports for struggling learners, students with IEPs and students learning English as a second language
- Effective lessons for all, including diverse learners, struggling learners, students with IEPs and students learning English as a second language
- Assessments reflective of instruction and learning
- Collective analysis of student work and needs
- Reflection by teachers of their own practice

**ENACT PLAN:** Our consultants vigorously work to model, coach and support teachers as they learn how to:

- Understand and embrace high quality, standards aligned unit based curriculum to plan with attention to text complexity and performance tasks
- Apply observation feedback practices to enrich and adjust their instruction
- Utilize instructional practices including: strategic grouping, Acceleration for ELL and SPED students, open-ended and differentiated questioning scaffolds as well as academic discourse, and curriculum-embedded performance tasks that maintain the rigor and learning outcomes of the written curriculum
- Provide strategic opportunities for EL learners and students with disabilities to build background knowledge and preview the text from Tier 1 curriculum
- Ensure that PLC time is used to analyze student work against the expectations of the Louisiana Standards and to inform interventions and future instruction.

New Directions' consultants help educators adhere to the implementation plan, monitor progress against goals, assess the effect on educator practice and student learning, and enhance the plan on a continuous basis.

**CONSISTENT MONITORING:** Using a collaborative system, consultants report on their work after each day of service so that progress can be tracked against the goals stated in the plan and next steps are transparent to district and school administration. Student outcomes and teacher capacity instruments are used to monitor and review progress with school and district educators.

**Continuation of the “Compass for Improvement Cycle”:** The New Directions improvement practice requires multiple cycles of analyzing data, customized planning, enacting the plan, and consistent monitoring and reflection. Continuing the cycle over time is imperative because it provides ongoing insights on accomplishments and progress. New Directions' consultants can assist educators as they monitor progress against goals and then start the cycle again because of the deep, job embedded support that is on-going. We diagnose obstacles affecting desired outcomes and then adjust the plan considering the progress made while building support for continual educator and student growth.

**VENDOR: Teaching Lab**

**CONTENT AREA: Mathematics**

**ALIGNED TIER 1 PRODUCT: Illustrative Mathematics (IM) – IM 6-8 Math**

**CONTACT: Sheena Lights, 708-347-2020, [sheena@teachinglab.org](mailto:sheena@teachinglab.org)**

## VENDOR DESCRIPTION

Teaching Lab is a nonprofit organization with a mission to fundamentally shift the paradigm of teacher professional learning to achieve educational equity. We work with school, district, and state leaders to create the instructional systems necessary to support these changes. Our model is based on the best educational research and years of experience using exceptional instructional materials with teachers. Our team of educators is committed to ensuring all students meet the academic expectations necessary to succeed now and in the future. Our partners believe in the power of great teaching to inspire students at all levels to learn and grow. Together, we are building a nationwide movement for evidence-based teacher professional learning.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

**Long-term Partnership Model:** The core of our work is based on research that effective professional learning incorporates three critical components:

**Core academic content embedded in exceptional instructional materials and aligned to research-based practices.** Teachers deserve daily access to instructional practices based in research. Deep study of high-quality instructional materials allows teachers to grow their knowledge over time and spread that knowledge to their colleagues. We call this the “**head**” of professional learning.

**Teacher-led communities that build both social capital and buy-in.** Teachers deserve to feel motivated and supported by their peers to learn and grow. In teacher-led communities, educators are more likely to buy in to their own development and work collaboratively with their colleagues to improve instruction. We call this the “**heart**” of professional learning.

**Structured and repeated cycles of learning in the classroom.** Teachers deserve to learn from their efforts. Repeated cycles of learning afford teachers the time and space to reflect, incorporate new learning into practice, and verify changes to instruction using analysis of student work. We call this the “**habits**” of professional learning.

**We integrate these three components by creating “Labs” in schools and districts. Labs are often compared to PLCs.**

A **Lab** is a group of teachers of the same subject working with students in the same or similar grade levels within a network of schools. Labs are led by two or more **Lab Leaders**, who are experienced teachers and instructional coaches who support their colleagues’ development. Labs center their work on curriculum-specific professional learning **Content Modules** created by Teaching Lab and vetted by experts. Content Modules support repeated **Cycles** of learning that align with student-facing materials to drive teacher professional learning. Cycles last four to six weeks to allow for teachers to apply and evaluate new learning. Labs complete two to four Cycles each school year.

**Teaching Lab starts by directly facilitating this work, gradually releasing facilitation responsibility to Lab Leaders over time while supporting with session modules and coaching support. Eventually, systems run their own Local Cycles independently.**

**VENDOR: The Achievement Network (ANet)**

**CONTENT AREA: Mathematics**

**ALIGNED TIER 1 PRODUCT: Illustrative Math**

For more information about partnership services, including customized packages, contact Amy Helmstetter (see above) or visit [www.jumpmath.org](http://www.jumpmath.org).

## SAMPLE LONG-TERM PARTNERSHIP MODEL

**JUMP Math Outreach and Teacher Support Managers (OM) work with each school and district to reach these desired outcomes:**

1. Build school and district capacity (administrators, coaches, teacher leaders) to support robust teacher and student performance.
2. Create a positive school community in which children and adults feel confident in their ability to learn and teach math.
3. Articulate operational frameworks and plans for monitoring performance using multiple formative measures and use data to inform instruction.
4. Students achieve at higher levels in math compared to past performance.

The sample model below reflects just a few months of the support JUMP Math provides to meet school goals. We personalize plans for one to three years, all beginning with face-to-face sessions and continuing with a blend of on-site and virtual learning and goal-focused coaching. JUMP Math offers a series of seven, scaffolded 90-minute modules paired with demonstrations, targeted classroom visits and feedback sessions, and support for teacher teams. OM's and school leaders work together to pace the professional learning experiences based on observations, teacher feedback, and continuous assessment of students' progress. Techniques to support students with disabilities and English Language Learners are part of the learning in every session, and in sessions specific to sub-groups with special needs.

**August:** Introduction to JUMP Math PD for Teachers and Getting Started PD for Leaders; Goals include:

1. Teachers will prepare and deliver JUMP Math lessons, building confidence and excitement about math in their classrooms.
2. Follow up coaching will focus on how to pace a lesson by interpreting students' progress throughout every lesson.

**September:** the OM will deliver module 1 and work with teachers and leaders to support the following:

1. Teachers prepare lessons noting the critical discernments or building blocks of concept development in each lesson.
2. Teachers provide short bursts of instruction followed by practice and assessment of students' mastery in equal time intervals.
3. Students are engaged and increasing in self-confidence and excitement about math.

**October:** the OM will deliver module 2 and work with teachers and school leaders to support the following:

1. Teachers check students' practice and identify when students need help and when they need a challenge (use bonus questions).
2. Teachers track student progress using multiple measures.
3. Teachers check fluency and provides additional interventions for students who are struggling.

**November:** the OM will deliver module 3 and work with teachers and school leaders to support the following:

1. Teachers integrate mental math activities and use the Mental Math checklist.
2. Review progress with students, parents, and school leaders to update goals. Recognize and celebrate the success that students have made to date.
3. OM will present options for using the digital lessons, how to check for mastery and support or challenge as indicated; refine use of Extensions.

**December:** the OM will deliver module 4 and work with teachers and school leaders to support the following:

1. Master the use of problem-solving strategy lessons; encourage and support consolidation and transfer of new skills and understandings.
2. Celebrate progress and plan how to bridge gaps.
3. Review school-wide progress, discuss additional supports for any students who are still struggling,

Visit [www.jumpmath.org](http://www.jumpmath.org) to view a yearlong plan and to learn more about JUMP Math professional learning experiences.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

Open Up Resources is proud to partner with a variety of professional development providers so that we can appropriately tailor PD to meet the vision and needs of Louisiana Districts. You are free to mix and match or select a single model that best meets your needs. Open Up Resources has veteran math field specialists that have worked at both district and state-levels ready to partner with you for free in order to help you make the best choices for your schools. They look forward to engaging with district- and building-level leadership on developing a customized model of professional development based on culture and proficiency. While we work with several professional development providers, Open Up Resources will coordinate the planning and implementation of your choice.

An example high-level model that may be used for a 3-year implementation plan is as follows:

YEAR 1: Investment into teacher capacity largely at the content level	YEAR 2: Focus on instructional shifts teachers are making with a problem-based curriculum as well as ELL and SD supports	YEAR 3: Transitioning to a self-sustaining district
A 2-day introduction to curriculum training for teachers and an additional day for teacher leaders	2-day follow-up training for teachers, leaders, and coaches and additional half-day leadership training on supporting PLC's	A 2-day training focused on partner needs for teachers, leaders, and coaches
Unit Trainings throughout year for teachers, leaders, and coaches	Coaching through PLC's and/or 1:1 coaching	PLC and/or 1:1 coaching for math coaches and instructional leaders and 1:1 coaching for new teachers

While the plan above is a suggestion, we believe it represents key parts of implementation that will need to be considered. We look forward to collaboratively adapting this plan to suit the needs of your district. Open Up Resources is more than a publisher of great quality curriculum, we are a partner for instructional change!

For more information about partnership services, including customized packages, contact Ginger Merritt or visit [www.generationready.com](http://www.generationready.com).

## Continuous Cycle of Improvement

### YEAR 1

**Diagnose:** Consultants will observe and confer with district and school personnel to understand fidelity and use of the Eureka curriculum and what student data show in terms of what is taking place with student learning in classrooms. Consultants will support school personnel to diagnose needs related to all learners including ELL students and students with IEPs.

**Plan:** After the level of curriculum use and student performance is analyzed, our consultants apply their expertise and collaborate with school personnel to set goals and create a detailed plan of action centered on four stages:

- Utilization and fidelity of Tier 1 high-quality curricula to prepare for instruction, including identifying specialized supports for students with IEPs and students learning English as a second language
- Effective instruction for all, including diverse learners, students with IEPs and students learning English as a second language
- Collaborative analysis of student work and needs
- Teacher's reflection of their own practice

**Implement and Support:** Our consultants actively work to coach and support teachers as they learn how to:

- Plan using high quality, standards-aligned unit-based curriculum with attention to conceptual development and performance tasks
- Utilize observation feedback practices to enhance and adjust their instruction
- Apply instructional practices including strategic grouping, acceleration for ELL and SPED students, differentiated scaffolding questioning and academic discourse, and curriculum-embedded performance tasks that maintain the rigor and learning outcomes of the written curriculum
- Prepare students for new learning using the math remediation guide
- Leverage PLC time to analyze student work against the expectations of the Louisiana Standards, to inform interventions and future instruction, and
- Use PLCs and individual planning time to reflect on their own professional practice.

Our consultants help educators stick to the implementation plan, monitor progress against individual goals, assess the impact on educator practice and student learning, and refine the plan on an ongoing basis as needed.

**Monitor:** Using our ReadyPath Prime project management system, consultants report on their work after each day of service so that the services provided track progress against the goals stated in the plan and next steps are transparent to the Generation Ready management team as well as to district and school administration. Consultants use Generation Ready data visualization tools to monitor progress related to teacher capacity and student outcomes. This data is used to track progress towards goals, review progress with educators in the district and school, and adjust the action plan as needed.

### YEARS 2-3

**Continue the Cycle:** The improvement process requires multiple cycles of research-based action, data analysis, and reflection. Continuing the cycle over time is critical because it provides ongoing insights on success and progress. Because Generation Ready's support is deeply job-embedded and ongoing, our consultants can assist educators as they monitor progress against goals and then start the cycle again. We diagnose real-time barriers affecting desired outcomes and then adjust the plan considering the progress made while building support for continued educator and student growth.

**VENDOR:** SchoolKit

**CONTENT AREA:** Mathematics

**ALIGNED TIER 1 PRODUCT:** Zearn Math

**CONTACT:** Ethan Mitnick, 610-858-1546, [ethan@schoolkitgroup.com](mailto:ethan@schoolkitgroup.com)

## VENDOR DESCRIPTION

We partner with schools and districts to improve instruction and leadership through content and curriculum-specific training and onsite coaching support. Beginning in 2017, we led the ELA and Intervention Content Leader programs and School Support Institutes in partnership with the LDOE and have trained educators across the state on Tier 1 ELA and math curricula.

## SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Method	Duration	Initial Support	Ongoing Support	SPED Supports	ELL Supports	Max # of Participants	Cost

## SAMPLE LONG-TERM PARTNERSHIP MODEL

A sample year-long partnership consists of the following supports:

- 5–6 days of **training for teachers** to build knowledge of standards-aligned math instruction and effective planning using the curriculum. We recommend at least two days in the summer, with the remaining days scheduled throughout the year.
- 2–6 days of **training and instructional walkthroughs for school leadership teams** to build their knowledge of the curriculum and strengthen teacher collaborative planning time (PLCs), observation and feedback with Zearn, and school-based instructional systems.
- 3–4 days of **co-planning and instructional walkthroughs with district leaders** to identify trends and set goals for curriculum use and mathematics instruction across schools, refine instructional systems, and plan to continue building local capacity through professional learning.

We partner with school and district leaders to customize our work and ensure that we meet the needs of novice and advanced educators, build on previous curriculum trainings, and align our work to existing district structures and priorities. We support both stand-alone districts and schools, as well as LEAs working in a consortium model (i.e., multiple charter schools, consortia of 2 or more smaller districts working together).

**VENDOR:** Teaching Lab

## SAMPLE LONG-TERM PARTNERSHIP MODEL

**Long-term Partnership Model:** The core of our work is based on research that effective professional learning incorporates three critical components:

**Core academic content embedded in exceptional instructional materials and aligned to research-based practices.** Teachers deserve daily access to instructional practices based in research. Deep study of high-quality instructional materials allows teachers to grow their knowledge over time and spread that knowledge to their colleagues. We call this the “**head**” of professional learning.

**Teacher-led communities that build both social capital and buy-in.** Teachers deserve to feel motivated and supported by their peers to learn and grow. In teacher-led communities, educators are more likely to buy in to their own development and work collaboratively with their colleagues to improve instruction. We call this the “**heart**” of professional learning.

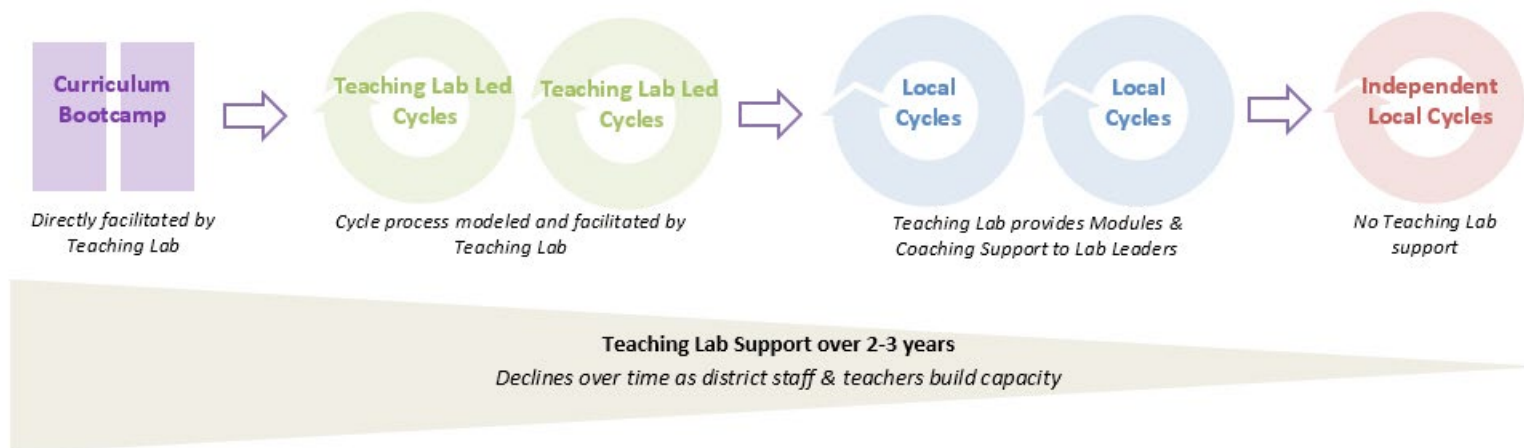

**Structured and repeated cycles of learning in the classroom.** Teachers deserve to learn from their efforts. Repeated cycles of learning afford teachers the time and space to reflect, incorporate new learning into practice, and verify changes to instruction using analysis of student work. We call this the “**habits**” of professional learning.

**We integrate these three components by creating “Labs” in schools and districts. Labs are often compared to PLCs.**

A **Lab** is a group of teachers of the same subject working with students in the same or similar grade levels within a network of schools. Labs are led by two or more **Lab Leaders**, who are experienced teachers and instructional coaches who support their colleagues’ development. Labs center their work on curriculum-specific professional learning **Content Modules** created by Teaching Lab and vetted by experts. Content Modules support repeated **Cycles** of learning that align with student-facing materials to drive teacher professional learning. Cycles last four to six weeks to allow for teachers to apply and evaluate new learning. Labs complete two to four Cycles each school year.

**Teaching Lab starts by directly facilitating this work, gradually releasing facilitation responsibility to Lab Leaders over time while supporting with session modules and coaching support. Eventually, systems run their own Local Cycles independently.**

Initial One-Day Institute	This one-day institute provides educators with the opportunity to engage with the IQWST materials. Participants investigate and explain phenomena, engage with the digital components of the program, learn how to navigate the curriculum resources, and how to implement the first module of study.	In Person	One-day session	✓		✓	✓	1 facilitator for every 30 participants	\$2,200 per facilitator
Initial Two-Day Institute	This two-day institute introduces educators to the tenets of IQWST. Participants learn the facets of IQWST and key instructional strategies that are critical to the successful implementation of the curriculum. Participants develop and use models, articulate scientific principles, and write scientific explanations using the claims, evidence, reasoning framework. Participants also learn how to implement the first module and plan lessons.	In Person	Two-day session	✓		✓	✓	1 facilitator for every 30 participants	\$4,000 per facilitator for two consecutive days
Initial Follow-up Institute	This one-day follow-up institute provides educators with an overview of the next module in the IQWST curriculum. Participants take an in-depth examination of the science concepts in the module and build a conceptual understanding of the scientific principles. Participants also engage in learning from the student and teacher perspective.	In Person	One-day session		✓	✓	✓	Number of facilitators will be determined to meet the need	\$2,200

## SAMPLE LONG-TERM PARTNERSHIP MODEL

### Activate Learning Preferred 3 Year Professional Development Plan

This sample three-year plan provides an overview of the key actions that school systems should consider as they implement IQWST instructional materials. We look forward to collaboratively adapting this plan to support the unique needs of school systems.

YEAR 1	<ul style="list-style-type: none"> <li>• Initial two-day summer institute with teachers</li> <li>• Initial follow-up training with teachers</li> </ul>
YEAR 2	<ul style="list-style-type: none"> <li>• Initial one-day summer institute with new teachers</li> <li>• Train the trainer with teacher leaders: A concentrated model to support teacher leaders as they master instructional and conceptual strategies that are embedded throughout the curriculum.</li> </ul>
YEAR 3	<ul style="list-style-type: none"> <li>• Initial one-day or two-day institute for teacher leaders and instructional coaches</li> <li>• Four virtual trainings with teacher leaders and instructional coaches: A model to support leaders as they plan and conduct targeted professional developments</li> </ul>

TNTP's mission is to end the injustice of educational inequality by providing excellent teachers to the students who need them most and by advancing policies and practices that ensure effective teaching in every classroom. We are a national non-profit and, since 2001, TNTP has worked with parents, educators, and school and district leaders to improve the lives of Louisiana's next generation. Now, we're redoubling our commitment to Louisiana's children—to give all students a great education. We believe we can make that a reality by prioritizing great teaching, rigorous academics, and supportive learning environments.

## SAMPLE LONG-TERM PARTNERSHIP MODEL

All TNTP trainings are designed to meet the needs of the specific client and, as such, all content is highly customizable. TNTP will meet with all interested partners to determine needs and readiness before building content and will work directly with each partner throughout the process to create a product that is appropriate and timely. TNTP is committed to working in partnership with districts, CMOs and schools to build capacity in target staff members to ensure each engagement is sustainable long term. TNTP does not implement pre-packaged support; rather, we work directly with our clients to develop action plans specific to the district, keeping sustainability and ease of implementation at the forefront.

TNTP begins each engagement with a data collection and analysis, and progress monitors using the same tools throughout the year to measure effectiveness. Data collection can include classroom observations, student work analysis, curriculum review, teacher focus groups and student focus groups.

**Develop the capacity of district and school leaders to recognize strong literacy/math instruction and systematize the needed supports for full implementation to occur.**

TNTP will provide direct support to the district through a variety of avenues, including:

- Leading learning walks,
- Teacher and teacher leader professional learning sessions (e.g., bi-monthly PLCs),
- Student work analysis,
- Data collection and analysis on teacher practice and mindsets (e.g., classroom observation, focus groups, surveys),
- Weekly consultation with district leaders.

**Develop the necessary competencies among classroom teachers and teacher leaders to be able to use all components of the ELA/math curriculum, including planning & preparation, lesson delivery and student assessment practices.** Educator trainings and supports through this partnership will target the knowledge and skills needed for quality implementation, including knowledge of the Louisiana Student Standards in literacy/math, essential practices in foundational instruction, and the specific requirements of the curriculum itself. Throughout the school year, we will monitor student experiences with the curriculum not only to ensure students are developing skills aligned to state standards, but also to ensure their experiences are joyful, engaging and rigorous.

TNTP has a full-time staff of over 350 people, with over 20 staff members living locally in Louisiana. TNTP works with districts to determine need and matches staff with necessary experience to work across projects. Project teams typically include a combination of local staff on the ground, and those who provide virtual and in-person support as necessary from across the country.

**VENDOR: The DBQ Project****CONTENT AREA: Social Studies****ALIGNED TIER 1 PRODUCT: Mini-Q's, Social Studies, Supplemental Materials, Grades 4-5, 6-7, 9-12****CONTACT: Tyler Adams, 737-222-1832, [tyler@dbqproject.com](mailto:tyler@dbqproject.com)****VENDOR DESCRIPTION**

**VENDOR:** The Choices Program, Brown University

**CONTENT AREA:** Social Studies

**ALIGNED TIER 1 PRODUCT:** The Choices Program, Social Studies, Grades 9-12, Supplemental

**CONTACT:** Mimi Stephens, 978-808-3447, [Mimi\\_Stephens@brown.edu](mailto:Mimi_Stephens@brown.edu)

## VENDOR DESCRIPTION

The Choices Program is a nonprofit organization of Brown University that develops curricula on current and historical contested international issues. Choices materials incorporate the latest scholarship from Brown University and beyond to draw connections between historical events and contemporary international issues. In each Choices unit, a central activity challenges students to consider multiple viewpoints on a contested issue. Students examine the historical, cultural, and political background of the issue and develop writing, speaking and critical thinking skills.
